Tropical Fruit Tree Diversity Bhuwon Sthapit, Hugo Lamers, Ramanatha Rao, Arwen Bailey, 2016-05-12 Farmers have developed a range of agricultural practices to sustainably use and maintain a wide diversity of crop species in many parts of the world. This book documents good practices innovated by farmers and collects key reviews on good practices from global experts, not only from the case study countries but also from Brazil, China, and other parts of Asia and Latin America. A good practice for diversity is defined as a system, organization, or process that over time and space maintains, enhances, and creates crop genetic diversity and ensures its availability to and from farmers and other users. Drawing on experiences from a UNEP GEF project on Conservation and Sustainable Use of Wild and Cultivated Tropical Fruit Tree Diversity for Promoting Livelihoods, Food Security, and Ecosystem Services with case studies from India, Indonesia, Malaysia, and Thailand, the authors show how methods for identifying good practices are still evolving and challenges in scaling up remain. They identify key principles effective as a strategy for mainstreaming good practice into development efforts. Few books draw principles and lessons learned from good practices. This book fills this gap by combining good practices from the research project on tropical fruit trees with chapters from external experts to broaden its scope and relevance

Moody's Manual of Investments: American and Foreign ,1944 The Law of the United Nations as Applied to Intervention Within the Frame Work of Article 2, Paragraph 7 of the Un Charter Agola Auma-Osolo,2015-09-08

Ever since the first generation of man whereby our first patriarch Adam and matriarch Eve were commanded by God on what to do if they were to live and enjoy a happy life of perpetual peace and prosperity Genesis 2 1617 right up to our own generation today 2014 numerous prophets prophetesses philosophers statesmen scientists and jurists alike have also arisen echoing the same These include for example Hosea Isaiah Micah Samuel Jeremiah etc prophets Miriam Deborah Anna etc prophetesses Confucious Socrates Zeno Thomas Hobbes Jeremy Bentham John Stuart Mill John Locke etc philosophers Ur Num Hammurabi Marcus Tullis Cicero Woodrow Wilson Mohandas Karamchand Gandhi Marcus Garvey Rev Dr Martin Luther King Jr Kwame Nkrumah Patrice Lumumba Nelson Madiba Mandela etc statesmen Hugo Grotius L Oppenheim H Lauterpacht Hans Kelsen Louis B Sohn etc jurists Albert Einstein Inis L Claude Jr Robert J Oppenheimer Sir Norman Angell Raymond Aron Henri Saint Simon Immanuel Kant David Easton etc scientists and more so the Founding Fathers of The United Nations in 1945 But like Gods effort all their efforts also have fallen on mans deaf ears leading humanity to a perpetual perish Hosea 4 6 Using a case study methodology this book has established that various forms of conflict perennially scourging the international community are influenced by obsessive self seeking political passions for national interest defined in terms of power that these passions are cunningly packaged in dangerous principles of sovereign equality and domestic jurisdiction and the doctrine of survival of the fittest that it is these viruses that have always undermined and consequently retarded the United Nations efforts to realize fully its mandate as the chief custodian of world peace and security as was intended by its Founding Fathers in 1945 when all nation states had already proved totally incapable of achieving this elusive goal thus leading to the eruption of both World War I and II that this tragedy is a function of mans paradoxical nature his appetite for both peace and war that although man is endowed with a unique natural ability to listen and understand better than all other members of the animal kingdom unfortunately like Adam and Eve man is a perpetual hostage to his own double standard nature which consequently does not allow him to pass an acid test on the virtue of pacta sunt servanda honesty and finally that this is why the wishes of the Founding Fathers of the United Nations contained in both the preamble and entire charter have always failed to bear fruit in full since its inception Hence an urgent need for an emergency revival of the original concept of this world bodys role by

depreciating the existing dangerous supremacy of nation states sovereignty and legitimacy in appreciation of the sovereignty and legitimacy of the United Nations as a panacea This pragmatic innovation is cost effective and therefore extremely necessary Like a nation states effectively authoritative responsibility over its intercitizen interaction within its respective nation state jurisdiction this newly revitalized world body could similarly possess an effectively authoritative responsibility over its interstate interaction including acts of all nonstate actors within its international jurisdiction Also it would be able to contain both those viruses stated above and pathological tendencies of certain temporary insane actor s from emotionally resorting to thermonuclear biological or any other means of suicide mass terrorism genocide as ones payoff option to the source s of ones long helpless frustration and suffering that could consequently lead humanity to an automatic global Doomsday simply because of absence of such a needed world body to serve as an umpire for all in conformity with the wishes of the UN Founding Fathers
