women the most pervasive yet least recognized human rights abuse in the world and there is a long established history of the systematic victimization of women by the state during times of peace and conflict This book contributes to the established literature on women gender and crime and the growing research on state crime and extends the discussion of violence against women to include the role and extent of crime and violence perpetrated by the state State Crime Women and Gender examines state perpetrated violence against women in all its various forms Drawing on case studies from around the world patterns of state perpetrated violence are examined as it relates to women s victimization their role as perpetrators resisters of state violence as well as their engagement as professionals in the international criminal justice system From the direct involvement of Condoleezza Rice in the United States led war on terror to the women of Egypt s Arab Spring Uprising to Afghani poetry as a means to resist state sanctioned patriarchal control case examples are used to highlight the pervasive and enduring problem of state perpetrated violence against women The exploration of topics that have not previously been addressed in the criminological literature such as women as perpetrators of state violence and their role as willing consumers who reinforce and replicate the existing state sanctioned patriarchal status quo makes State Crime Women and Gender a must read for students and scholars engaged in the study of state crime victimology and feminist criminology

The Trees of the Cross Gregory C. Bryda, 2023-06-13 A revelatory exploration of wood's many material, ecological and symbolic meanings in the religious art of medieval Germany. A rewarding study that is full of new insights. Jeremy Warren, *Art Newspaper*. In late medieval Germany, wood was a material laden with significance. It was an important part of the local environment and economy as well as an object of religious devotion in and of itself. Gregory C. Bryda examines the multiple meanings of wood and greenery within religious art as a material, as a feature of agrarian life, and as a symbol of the cross whose wood has resonances with other iconographies in the liturgy. Bryda discusses how influential artists such as Matthias Grünewald, known for the Isenheim Altarpiece, and the renowned sculptor Tilman Riemenschneider exploited wood's multivalent nature to connect spiritual themes to the lived environment outside church walls. Exploring the complex visual and material culture of the period, this lavishly illustrated volume features works ranging from monumental altarpieces to portable pictures and offers a fresh understanding of how wood in art functioned to unlock the mysteries of faith and the natural world in both liturgy and everyday life.
