Execution Commanders Intent The BST Program provides a structured approach for the service to ensure all Marines sustain proficiency in 30 of the 178 common skills taught during entry level training The program will emphasize training using a leader led face to face approach Small unit leaders noncommissioned officers and above will be the primary trainers and evaluators Marines private through general will annually demonstrate their mastery of these common skills Commanders will have flexibility in their approach to training and evaluating their units

Concept of Operations The BST Program effectively begins 1 January 2018 as a calendar year requirement However commanders can immediately start incorporating BST training into their unit training plans and are encouraged to begin preparing their small unit leaders to conduct and evaluate the 30 common skills Training support packages TSP and associated performance evaluation checklists for each of the 30 BST skills are online to assist small unit leaders The TSPs provide small unit leaders the required information performance steps and evaluation criteria to facilitate leader led training The training is designed to be conducted in any environment from garrison to field on the flight line in the motor pool maintenance bay or on ship Units may find that many of these skills are already embedded in their unit training plan thereby minimizing the impact of the BST Program Commanders determine how and when the training and evaluation will occur throughout the calendar year Options range from training and evaluation over the course of a year to training throughout the year and then consolidating evaluation into a culminating event to foster esprit de corps For example training and evaluation can be combined in a teach it test it method where Marines are evaluated immediately after the training is conducted or Marines can be trained and then evaluated on a later date All Marines have previously been taught these skills during entry level training thus the expectation is that Marines have the ability to easily refresh and sustain these skills However if unable to pass Marines will have multiple opportunities to remediate Commanders have the entire calendar year to ensure their Marines train and pass all 30 of the skills and will ensure that training is recorded The 30 skills of BST Program are Basic Infantry skills Conduct observation Defend a position Describe the use of deadly force Employ a map and compass Handle detainees Identify anomalies Perform actions with a

service rifle Perform immediate action upon contact with the enemy Perform weapons handling procedures with a service rifle Search an individual Stand a sentry post Visually identify indicators of improvised explosive devices Communications Communicate using hand and arm signals Operate a VHF radio Submit a message First Aid Apply a tourniquet Describe phases of tactical combat casualty care Treat a cold weather injury Treat a heat injury History Identify significant events in Marine Corps history Identify the historical significance of Marine Corps uniform items Leadership Apply the components of the decision cycle OODA loop Describe Marine air ground task force organizations Describe operational security Describe stresses of combat Describe The Code of Conduct Describe rights of a prisoner of war Prepare for combat Uniform Code of Military Justice Describe Article 15 Non Judicial Punishment Describe Article 31 Rights of the Accused *FIELD MEDICAL SERVICE TECHNICIAN STUDENT HANDBOOK VERSION 4.1 With Block 1 & 2 Student Outlines And Visual Presentations* , Over 2 300 total pages OVERVIEW Tactical Combat Casualty Care TCCC was developed to emphasize the need for continued improvement in combat pre hospital care The Committee on Tactical Combat Casualty Care CoTCCC was established in 2001 and is part of the Defense Health Board CoTCCC is a standing multi service committee charged with monitoring medical developments in regards to practice technology pharmacology and doctrine New concepts in hemorrhage control airway management fluid resuscitation analgesia antibiotics and other lifesaving techniques are important steps in providing the best possible care for our Marines and Sailors in combat The TCCC guidelines are published every 4 years in the Prehospital Trauma Life Support manual It has been recognized that TCCC guidelines and curriculum will need to change more often than the 4 year cycle of the PHTLS textbook publication The National Association of Emergency Medical Technicians NAEMT will include the updated TCCC guidelines and curriculum on its website as they are approved as a way to help get this new information out to the combat medical personnel in the military that need it PRINCIPLES OF TACTICAL COMBAT CASUALTY CARE TCCC The principles of Tactical Combat Casualty Care are fundamentally different from those of traditional civilian trauma care where most medical providers and medics train These differences are based on both the unique patterns and types of wounds that are suffered in combat and the tactical conditions medical personnel face in combat Unique combat wounds and tactical conditions make it difficult to determine which intervention to perform at what time Besides addressing a casualty s medical condition responding medical personnel must also address the tactical problems faced while providing care in combat A medically correct intervention at the wrong time may lead to further casualties Put another way good medicine may be a bad tactical decision which can get the rescuer and the casualty killed To successfully navigate these issues medical providers must have skills and training oriented to combat trauma care as opposed to civilian trauma care The specifics of casualty care in the tactical setting will depend on the tactical situation the injuries sustained by the casualty the knowledge and skills of the first responder and the medical equipment at hand In contrast to a hospital Emergency Department setting where the patient IS the mission on the battlefield care of casualties sustained is only PART of the

mission TCCC recognizes this fact and structures its guidelines to accomplish three primary goals 1 Treat the casualty 2 Prevent additional casualties 3 Complete the mission In thinking about the management of combat casualties it is helpful to divide care into three distinct phases each with its own characteristics and limitations
