rather than later a special feature includes sidebars From the Principal s Office with insights from a 35 year elementary school principal and educator Moms will learn how to cover their children in prayer so that their launch into the world and away from her control is done with grace and wisdom helping them grow into the men and women God intended them to be

Why Are You Still Sending Your Kids to School? Blake Boles,2020-05-19 For some kids school offers a positive and engaging experience For others it s a boring stressful and frustrating waste of time If your child is in the second category why keep tormenting them Instead why not help them find an educational environment where they feel genuinely motivated excited and empowered In this eye opening book Blake Boles makes the case for leaving conventional school and taking one of the many alternative paths through K 12 that exist today He addresses parents major concerns about unconventional education Can my kids still go to college Will they still be employable How will they learn to work hard while highlighting the hidden benefits of self directed learning such as improved parent child relationships a more balanced decision making process regarding college and a heightened sense of autonomy and connection Drawing upon 15 years of work as a mentor and guide for adolescents in alternative and experiential learning environments as well as his own unconventional life path Boles weaves together narrative theory and research to build a powerful argument for granting children unusual levels of freedom and responsibility

The Christian Mama's Guide to Parenting a Toddler Erin MacPherson,2013 This take on everything toddler from throwing food to potty training to massive toddler fits is filled with sanity saving advice every mom wants to hear

Mathematics and Transition to School Bob Perry,Amy MacDonald,Ann Gervasoni,2015-01-09 This edited book brings together for the first time an international collection of work focused on two important aspects of any young child s life learning mathematics and starting primary or elementary school The chapters take a variety of perspectives and integrate these two components in sometimes explicit and sometimes more subtle ways The key issues and themes explored in this book are the mathematical and other strengths that all participants in the transition to school bring to this period of a child s life the opportunities provided by transition to school for young children s mathematics learning the importance of partnerships among adults and among adults and children for effective school transitions and mathematics learning and teaching the critical impact of expectations on their mathematics learning as children start school the importance of providing children with meaningful challenging and relevant mathematical experiences throughout transition to school the entitlement of children and educators to experience assessment and instructional pedagogies that match the strengths of the learners and the teachers the importance for the aspirations of children families communities educators and educational organisations to be recognised as legitimate and key determinants of actions experiences and successes in both transition to school and mathematics learning and the belief that young children are powerful mathematics learners who can demonstrate this power as they start school In each chapter authors reflect on their work in the area of mathematics and transition to school place that work within the overall context of research in these fields predict the trajectory of this work in the future

and consider the implications of the work both theoretically and practically **Public Schools, Public Menace** Joel Turtel, 2005-03 The book explains why public schools are a menace to our children and waste their precious time The book also shows why public schools are beyond repair and simply cannot give children the education they need and deserve The author reveals how public schools cripple children's ability to read and indoctrinate innocent children with anti parent anti American and anti Judeo Christian values The book also explores why public school authorities now pressure millions of parents to give their children mind altering drugs like Ritalin The good news is that parents don't have to put up with a third rate mind numbing public school education for their kids any longer The author gives parents a wealth of practical advice strategies and resources about quality low cost education alternatives parents can use to give their kids a great education if they decide to take their kids out of public school He gives detailed lists of quality low cost Internet schools teaching books and home schooling resources parents can use to give their kids a great education Dr Laura Schlessinger syndicated radio talk show host said about Public Schools Public Menace that This book is a must read for every parent **The Art of Teaching Children** Phillip Done, 2022-07-26 An essential guide for teachers and parents that's destined to become a classic The Art of Teaching Children is one of those rare and masterful books that not only defines a craft but offers a magical reading experience After more than thirty years in the classroom award winning teacher Phillip Done decided that it was time to retire But a teacher's job is never truly finished and he set out to write the greatest lesson of his career a book for educators and parents that would pass along everything he learned about working with kids From the first day of school jitters to the last day's tears Done writes about the teacher's craft classrooms and curriculums the challenges of the profession and the reason all teachers do it the children Drawing upon decades of experience Done shares time tested tips and sage advice Real learning is messy not linear Greeting kids in the morning as they enter the classroom is an important part of the school day If a student is having trouble look at what you can do differently before pointing the finger at the child Ask yourself Would I want to be a student in my class When children watch you they are learning how to be people and one of the most important things we can do for our students is to model the kind of people we would like them to be Done tackles topics you won't find in any other teaching book including Back to School Night nerves teacher pride the Sunday Blues Pinterest envy teacher guilt and the things they never warn you about in teacher school but should like how to survive recess duty field trips and lunch supervision Done also addresses some of the most important issues schools face today bullying excessive screen time the system's obsession with testing teacher burnout and the ever increasing demands of meeting the diverse learning needs of students But The Art of Teaching Children is more than a guide to educating today's young learners These pages are alive with inspiration humor and tales of humanity Done welcomes us like visitors at Open House Night to the world of elementary school where we witness lessons that go well and others that flop periods that run smoothly and ones that go haywire when a bee flies into the room We meet master teachers and new ones librarians and lunch supervisors

principals and parents some with too much time on their hands We get to know kids who want to hold a ball and those who d rather hold a marker students with difficult home lives and children with disabilities youngsters who need drawing out and those who happily announce in the middle of a math lesson that they have a loose tooth With great wit and wisdom irresistible storytelling and boundless compassion *The Art of Teaching Children* is the new educator s bible for teachers parents and all who work with kids and care about their learning and success

The Homeschooling Parent Teaches MATH! Kerridwen Mangala McNamara,2023-11-10 We all worry about our kids learning math Even if the kids are in school there s always a concern Sometimes it s about the kid s concern sometimes it s about their teacher s concern parent teacher or otherwise But a lot of the time it s about US It s about our own math phobias those fears dislikes or aversions that we picked up from our own math experiences and that we inadvertently pass on to our kids We don t want them to be afraid of math we know that limits their opportunities and makes their lives harder and costs them more money but we just can t help it This book is here to help you deal with your own math phobias and come to if not outright enjoy math to at least appreciate it and be able to convey it to your kids without passing on the fear Kerridwen Mangala McNamara is NOT a math lover but she is a math appreciator and has worked through most of these issues herself Let her help you along your homeschooling journey and show you how to fight the Fear of Math monster so that it no longer intimidates you or your kids

Selected writings from the Journal of the British Columbia Association of Mathematics Teachers Egan J Chernoff, Peter Liljedahl, Sean Chorney, 2016-06-01 The teaching and learning of mathematics in British Columbia has a long and storied history An integral part of the past 50 years 1962 2012 of this history has been Vector Journal of the British Columbia Association of Mathematics Teachers This volume which presents ten memorable articles from each of the past five decades that is 50 articles from the past 50 years of the journal provides an opportunity to share this rich history with a wide range of individuals interested in the teaching and learning of mathematics and mathematics education Each decade begins with an introduction providing a historical context and concludes with a commentary from a prominent member of the British Columbia mathematics education community As a result this monograph provides a historical account as well as a contemporary view of many of the trends and issues in the teaching and learning of mathematics This volume is meant to serve as a resource for a variety of individuals including teachers of mathematics mathematics teacher educators mathematics education researchers historians and undergraduate and graduate students Most importantly this volume is a celebratory retrospective on the work of the British Columbia Association of Mathematics Teachers

The State of the System Paul W. Bennett, 2020-09-23 Over the last fifty years Canada s public schools have been absorbed into a modern education system that functions much like Max Weber s infamous iron cage Crying out for democratic school level reform the system is now a centralized bureaucratic fortress that every year becomes softer on standards for students less accessible to parents further out of touch with communities and surprisingly unresponsive to classroom teachers Exploring the nature of the Canadian education order in all its dimensions The State of the System explains how public schools came to be so bureaucratic confronts the critical issues facing kindergarten to grade

12 public schools in all ten provinces and addresses the need for systemic reform Going beyond a diagnosis of the stresses strains and ills present in the system Paul Bennett proposes a bold plan to re engineer schools on a more human scale as the first step in truly reforming public education In place of school consolidation and managerialism one size fits all uniformity limited school choice and the success for all curriculum Bennett advocates for a new set of priorities decentralize school governance deprogram education ministries and school districts listen to parents and teachers and revitalize local education democracy Tackling the thorny issues besetting contemporary school systems in Canada The State of the System issues a clarion call for more responsive engaged and accountable public schools [Repossible Box Set 2](#) Bradley
