Semple Math Level 1 Teacher's Manual Janice L. Semple,Linda Lee,2005 The Level 1 Teacher s Manual focuses on addition while developing many related skills Each of the 52 lessons begins with a measurable objective and includes a clear teaching activity numerous optional games activities and ideas for teacher made supplemental materials Added sections such as special problems and older students assist the educator in adapting the program to the spectrum of learning challenges Available Fall 2005 the Second Edition Level One Teacher s Manual has been revised by the original author Letter to the Reader Semple Math is a complete basic skills mathematics program for students of all ages and all learning abilities We use a carefully ordered sequence of associative mnemonics in order to embed an accurate understanding of math concepts and skills in the long term memory of our students hence the expression Simply Unforgettable We do not ask students to memorize math facts through repetition We do not use learning by rote methods that teach only to a student s short term memory We have never encountered a math program or a supplemental material based entirely on learning by association nor have we ever encountered a program that has enjoyed our level of success with all students across the learning spectrum Now in its 25th year the program has undergone both a business reorganization and a long awaited revision of the Level One Teacher s Manual by the original author Jan Semple Semple Math materials were formerly distributed by Stevenson Learning Skills Inc Moving forward Semple Math Inc a new company founded by members of the Semple family will actively market our program while safeguarding the integrity ofthis tried and true process For more information please visit us at www.semplemath.com William W Semple President and Co founder Semple Math Inc

When Will I Ever Teach This? an Activities Manual for Mathematics for Elementary Teachers Susie Lanier,Sharon E. Taylor,2003-12 This book is an attempt to answer the most popular question asked by students in this course The best way that the authors have found to demonstrate to students the

need to learn certain topics is to bring pages from a real K 8 textbook This allows students to see when and where a topic occurs in the curriculum and also to see how it is presented in a text Thus each topic in this book has four components a brief discussion of the topic pages from a school text a set of problems that focus on skills and a set of problems that focus on concepts The topics are arranged as you find them in most MET books The topics that are presented in the manual are those with which students usually have the most trouble
