Dear [Mr./Ms./Mx.] [Hiring Manager's Last Name],

I was delighted to learn of your opening for an English Teacher through my former colleague, Linda Brown. I first met Linda at Evergreen Academy where we worked closely to mentor students with behavioral challenges and eventually integrated a schoolwide mindfulness program.

I'm currently a teacher at the DREAM School and have 5+ years of experience teaching English Language Arts to students in 2nd through 6th grade. My experience in mentoring students and modernizing curriculum makes me an excellent candidate to support your school's mission of fostering individual growth and curiosity through an exploratory curriculum.

My strong initiative and ability to cater to a diverse range of learners allow me to thrive in a challenging teaching environment. Specifically, some of my greatest professional successes include:

- Increasing reading levels by an average of 2 grade levels through engaging multiple modalities, creating fun reading challenges, and encouraging student-led reading
- Encouraging my students to be dreamers and lifelong learners with a personalized approach to teaching that instills confidence in their abilities and potential

I welcome the opportunity to personally discuss how my strengths can serve your students. I'm equally reachable at (123) 456-7890 or myemail@gmail.com to review my qualifications in greater detail.

Sincerely,

[Your Name]

Engaging Teacher Candidates and Language Learners With Authentic Practice Lenkaitis, Chesla Ann, Hilliker, Shannon M., 2019-06-28 Teacher candidates need authentic practice with language learners so that they can test and hone their skills based on the concepts learned in their teacher education programs with real students. These candidates need practice before and beyond student teaching and fieldwork. If they are given the chance to practice during as many teacher education courses as possible and have access to language learners throughout their programs, they can focus on applying the specific content of each class they take in a real world context with real students. *Engaging Teacher Candidates and Language Learners With Authentic Practice* highlights strategies teacher educators can use to give their teacher candidates authentic practice attached to coursework. By focusing on ways that authentic practice has been integrated into teacher preparation programs and studies that have been realized, this publication will provide practical ways for others to provide this authentic practice which is much needed in teacher preparation programs. This book highlights topics such as pedagogy, student engagement, and intercultural competence and is ideal for educators, administrators, researchers, and students. **Research**

Anthology on Adult Education and the Development of Lifelong Learners Management Association, Information Resources, 2021-03-19 Whether it is earning a GED, a particular skill, or technical topic for a career, taking classes of interest, or even returning to begin a degree program or completing it, adult learning encompasses those beyond the traditional university age seeking out education. This type of education could be considered non-traditional as it goes beyond the typical educational path and develops learners that are self-initiated and focused on personal development in the form of gaining some sort of education. Essentially, it is a voluntary choice of learning throughout life for personal and professional development. While there is often a large focus towards K-12 and higher education, it is important that research also focuses on the developing trends, technologies, and techniques for providing adult education along with understanding lifelong learners' choices, developments, and needs. *The Research Anthology on Adult Education and the Development of Lifelong Learners* focuses specifically on adult education and the best practices, services, and educational environments and methods for both the teaching and learning of adults. This spans further into the understanding of what it means to be a lifelong learner and how to develop adults who want to voluntarily contribute to their own development by enhancing their education level or knowledge of certain topics. This book is essential for teachers and professors, course instructors, business professionals, school administrators, practitioners, researchers, academicians, and students interested in the latest advancements in adult education and lifelong learning. **Get a Teaching Job NOW** Mary C.
