

Teacher Wraparound Edition

Glencoe McGraw-Hill

Pre-Algebra

The background of the cover is a vibrant, abstract composition. It features several large, overlapping circles in shades of teal, green, and purple. A prominent, stylized tower with a circular top, resembling a modern architectural structure or a Ferris wheel, is positioned on the right side. The tower is white with a blue interior. The overall design is dynamic and geometric, with a color palette dominated by cool tones and bright highlights.

Wood, Cristy Coughlin, Caitlin Rasplika Khoury, 2020-07-09 Based on more than ten years of research All Students Can Succeed presents a comprehensive review of research related to Direct Instruction DI a highly structured method of teaching based on the assumption that all students can learn if given appropriate instruction The authors identify over 500 research reports published over the last 50 years and

encompassing almost 4 000 effect sizes no doubt the largest meta analysis of any single method of instruction ever published Extensive statistical analyses show that estimates of DI s effectiveness are consistent over time with different research approaches across different school environments students from all types of backgrounds different comparative programs and both academic achievement and non academic outcomes including student self confidence Effects are substantially stronger than those reported for other curricula When students have DI for more time and when teachers implement the programs as designed the effects are even stronger Results indicate that DI has the potential to dramatically change patterns of student achievement in the United States In an even handed style accessible to policy makers educators and parents the authors describe the theory underlying DI its development use and history systematically examine criticisms and discuss policy implications Extensive appendices provide detailed information for researchers
