Teachers Guide In Grade 2 Mother Tongue:

Effectiveness of teachers' guides in the Global South Benjamin Piper, Yasmin Sitabkhan, Jessica Mejia, Kellie Betts, 2018-05-10 This report presents the results of RTI International Education's study on teachers guides across 13 countries and 19 projects Using quantitative and qualitative methods we examine how teachers guides across the projects differ and find substantial variation in the design and structure of the documents We develop a scripting index so that the scripting levels of the guides can be compared across projects The impact results of the programs that use teachers guides show significant impacts on learning outcomes associated with approximately an additional half year of learning showing that structured teachers guides contribute to improved learning outcomes During observations we find that teachers make a variety of changes in their classroom instruction from how the guides are written showing that the utilization of structured teachers guides do not create robotic teachers unable to use their own professional skills to teach children Unfortunately many changes that teachers make reduce the amount of group work and interactivity that was described in the guides suggesting that programs should encourage teachers to more heavily utilize the instructional routines designed in the guide The report includes a set of research based guidelines that material developers can use to develop teachers guides that will support effective instructional practices and help improve learning outcomes The key takeaway from the report is that structured teachers guides improve learning outcomes but that overly scripted teachers guides are somewhat less effective than simplified teachers guides that give specific guidance to the teacher but are not written word for word for each lesson in the guide *Resources in Education*, 1999-04 Public School Methods. Teacher's Guide, 1918 **Language Ideologies and Challenges of Multilingual Education in Ethiopia** Moges Yigezu, 2010 During the last decade and a half The use of local languages for official purposes particularly in primary education has become a pronounced characteristic of Ethiopian education system The fact that as many as 22 languages have been introduced into the school system since mid 1990s represents a major ideological shift from the previous policies the country had adopted over the course of several centuries The Ethiopian educational language policy is radical in its scope and unique in Sub Saharan Africa and elsewhere and it invites a close examination of its ideological foundation and even more so its implementation model The primary objective of this study was to make a critical appraisal of the implementation of vernacular education in the Harari region and examine the challenges of providing primary education in several Ethiopian and international languages i.e English Amharic Oromo Arabic and Harari The study made a comparative assessment of the use of languages as media of instruction for primary education and concluded with an appraisal of the relative strengths and weaknesses in the use of each language from both pedagogical and social perspectives **Ugandan English** Christiane Meierkord, Bebwā Isingoma, Saudah Namyalo, 2016-10-20 Ugandan English is a variety that has scarcely been noticed in past research This timely volume brings together African and European scholars in a first ever collection of articles that offer comprehensive discussions of the

historical and present day sociolinguistics of English in Uganda and fine grained analyses of the structural characteristics of and attitudes to this hitherto largely unknown variety Using rich archive corpus and interview data as well as ethnographic and observational methods the various contributions paint a comprehensive picture of Ugandan English as distinct from other East African Englishes and as characterized by nativisation despite a still strong exonormative orientation reflecting the modern nation s status as a post protectorate under the influence of globalisation Apart from advancing our understanding of Ugandan English itself the individual chapters contribute to theoretical debates on language contact and variation as regards the influence of substrate languages founder populations language ideologies and socio economic factors
