

Stage 1 – Desired Results

ESTABLISHED GOALS The enduring understandings and learning goals of the lesson, unit, or course.	<i>Transfer</i> <i>Students will be able to independently use their learning to...</i>	
	Refers to how students will transfer the knowledge gained from the lesson, unit, or course and apply it outside of the context of the course.	
	<i>Meaning</i>	
	UNDERSTANDINGS <i>Students will understand that...</i> Refers to the big ideas and specific understandings students will have when they complete the lesson, unit, or course.	ESSENTIAL QUESTIONS Refers to the provocative questions that foster inquiry, understanding, and transfer of learning. These questions typically frame the lesson, unit, or course and are often revisited. If students attain the established goals, they should be able to answer the essential question(s).
	<i>Acquisition</i>	
	<i>Students will know...</i> Refers to the key knowledge students will acquire from the lesson, unit, or course.	<i>Students will be skilled at...</i> Refers to the key skills students will acquire from the lesson, unit, or course.

Stage 2 – Evidence and Assessment

Evaluative Criteria	Assessment Evidence
Refers to the various types of criteria that students will be evaluated on.	PERFORMANCE TASK(S): Refers to the authentic performance task(s) that students will complete to demonstrate the desired understandings or demonstrate they have attained the goals. The performance task(s) are typically larger assessments that coalesce various concepts and understandings like large projects or papers.
	OTHER EVIDENCE: Refers to other types of evidence that will show if students have demonstrated achievement of the desired results. This includes quizzes, tests, homework, etc. This is also a good point to consider incorporating self-assessments and student reflections.

Stage 3 – Learning Plan

Summary of Key Learning Events and Instruction

This stage encompasses the individual learning activities and instructional strategies that will be employed. This includes lectures, discussions, problem-solving sessions, etc.

Teachers Guide Ubd Science 1

Teachers Guide Ubd Science 1:

Towards Inclusion of All Learners through Science Teacher Education Michele Koomen, Sami Kahn, Christopher L. Atchison, Tiffany A. Wild, 2018-05-16 *Towards Inclusion of All Learners through Science Teacher Education* serves as an indispensable resource for teachers and teacher educators wishing to understand how to educate students with exceptionalities in science. This book begins with the voices and stories of the experts current and former K 12 students with disabilities sharing their experiences in science education classrooms. The voices of students with disabilities are then connected to the work of leading experts in the area of science education for individuals with disabilities in an effort to address the goals of national reform documents by ensuring rigorous science experiences for all students. It is written in a highly accessible and practical manner making it ideal for all educators including pre service and in service teachers teacher educators researchers and curriculum developers

STEM Education: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2014-12-31 This reference brings together an impressive array of research on the development of Science Technology Engineering and Mathematics curricula at all educational levels. Provided by publisher

A Practitioner's Guide to Public Archaeology Elizabeth C. Reetz, Stephanie T. Sperling, 2024-08-19 Many archaeologists learn by trial and error while developing public programs and events and are mostly unaware that others in the profession are undergoing the same challenges. Archaeologists seldom receive professional development on K 12 pedagogy public engagement program design or assessment. For many in the field public outreach is often an under funded and under resourced extension of an already overwhelming workload yet this work is incredibly important. In *A Practitioner's Guide to Public Archaeology: Intentional Programming for Effective Outreach* more than thirty public archaeology practitioners will help you reduce the guesswork and stress behind program planning in this engaging and reader friendly handbook. A complement to the growing library of public archaeology publications the authors exclusively focus on key components of planning implementing and assessing public archaeology programming. Learn how to connect with your audience build an accessibility mindset create intentional goals and outcomes identify resources collaborators and other logistical needs and conduct assessments to better understand your impact. Discover ideas and techniques for all ages programming like public excavations site tours festivals and lectures K 12 presentations and events including formal and nonformal educational programs that occur inside and outside of a classroom and community based heritage management programs that include those designed for recurring participation by active trained volunteers. Throughout the book curated case study excerpts provide a diversity of perspectives and offer practical insights. The book concludes with a collection of logistics templates and real world examples to help you streamline your program preparation. Drawing from decades of experience you ll discover guidance on navigating challenges celebrating successes and lessons learned. Whether you are new to public archaeology or a seasoned expert this book offers valuable insights for all practitioners

The

Understanding by Design Guide to Creating High-Quality Units Grant Wiggins, Jay McTighe, 2011-03-11 The Understanding by Design Guide to Creating High Quality Units offers instructional modules on the basic concepts and elements of Understanding by Design UbD the backward design approach used by thousands of educators to create curriculum units and assessments that focus on developing students understanding of important ideas The eight modules are organized around the UbD Template Version 2.0 and feature components similar to what is typically provided in a UbD design workshop including Discussion and explanation of key ideas in the module Guiding exercises worksheets and design tips Examples of unit designs Review criteria with prompts for self assessment and A list of resources for further information This guide is intended for K-16 educators either individuals or groups who may have received some training in UbD and want to continue their work independently those who've read Understanding by Design and want to design curriculum units but have no access to formal training graduate and undergraduate students in university curriculum courses and school and district administrators curriculum directors and others who facilitate UbD work with staff Users can go through the modules in sequence or skip around depending on their previous experience with UbD and their preferred curriculum design style or approach Unit creation planning and adaptation are easier than ever with the accompanying downloadable resources including the UbD template set up as a fillable PDF form additional worksheets examples and FAQs about the module topics that speak to UbD novices and veterans alike
