Discipline Problems Tadashi Dozono, 2024-05-07 Angel a Black tenth grader at a New York City public school self identifies as a nerd and likes to learn But she s troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in *Discipline Problems* has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she s taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students *Discipline Problems* reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners *The History of Educational Measurement* Brian E. Clauser, Michael B.

Bunch, 2021-07-07 *The History of Educational Measurement* collects essays on the most important topics in educational testing measurement and psychometrics Authored by the field s top scholars this book offers unique historical viewpoints from origins to modern applications of formal testing programs and mental measurement theories Topics as varied as large scale testing validity item response theory federal involvement and notable assessment controversies complete a survey of the field s greatest challenges and most important achievements Graduate students researchers industry professionals and other stakeholders will find this volume relevant for years to come *Contested Curriculum* Don Romesburg, 2025-04-15

Today many states have proposed so called Don t Say Gay bills that prohibit public school teachers from mentioning LGBTQ topics in the classroom But a few states like California have taken decisive steps in the other direction They mandate inclusive education that treats LGBTQ history as essential to the curriculum At once a history of an evolving movement and an activist handbook *Contested Curriculum* navigates the rocky path to LGBTQ inclusive K 12 history education in the United States and recounts the fight for a curriculum that recognizes the value of queer and trans lives What began in fits and starts

in activism and educational materials across the late twentieth century led to the passage of California's landmark FAIR Education Act in 2011 ensuring that LGBTQ history has a place in the K-12 classroom. Historian Don Romesburg, the lead scholar who worked with advocacy organizations to pass the act, recounts the decades-long struggle to integrate LGBTQ content into history education policy, textbooks, and classrooms. Looking at California and states that followed its lead, he assesses the challenges and opportunities presented by this new way of teaching history. Romesburg's powerful case for LGBTQ inclusive education is all the more urgent in this era of anti-gay book bans, regressive legislation, and attempts to diminish the vital role that inclusive and honest history education should play in a democratic nation. **Mao's America** Xi Van Fleet, 2023-10-31

THE BOOK BEHIND THE VIRAL TUCKER CARLSON INTERVIEW An inspiring survivor of Mao's Cultural Revolution in China makes a passionate case that history is eerily repeating itself as the Woke Revolution spreads across America. Xi Van Fleet lived through the horrors of the Chinese Cultural Revolution as a schoolgirl. Forced to the countryside with other young Chinese for re-education after high school, she later escaped communism and found freedom and new life in America. But more than 30 years later, Xi disturbingly sees signs of the same Cultural Marxism that ravaged her birth country of China threatening to destroy the America she now calls home. This is her dire warning to the United States. Xi compellingly tells the story of two Cultural Revolutions: one driven by Mao during her childhood and the one unfolding in today's America from the progressive left. With captivating personal stories and extensive historic research, Xi reveals the stunning similarities of these two revolutions. This fascinating book shows readers that both revolutions use Marxist tactics of division, indoctrination, deception, coercion, cancellation, subversion, and violence. Aim to destroy the foundation of the traditional culture to replace it with Marxist ideologies. Weaponize youth using them as their means to an end. Share the same goal of achieving absolute power at the expense of the people. Lead to the same ending: loss of freedom and totalitarian rule. Readers will be captivated by the riveting personal story of a Chinese immigrant to the United States who overcame fear and reluctance to get involved in the movement to save America. Her political activism begins with a school board speech in 2021 against Critical Race Theory in Loudoun County, Virginia, that unexpectedly goes viral and ignites national media attention. Xi now devotes her life to educating the American public on the shocking parallels between these two revolutions. Because only when Americans understand what is really happening will they rise up and resist the communist takeover of America.

The Magic Key Ruth Enid Zambrana, Sylvia Hurtado, 2015-10-15 Mexican Americans comprise the largest subgroup of Latinos, and their path to education can be a difficult one. In this interdisciplinary collection, editors Zambrana and Hurtado have brought together research studies that reveal new ways to understand how and why members of this subgroup have succeeded and how the facilitators of success in higher education have changed or remained the same. *The Magic Key's* four sections explain the context of
