*Positive Educational Approaches to Teaching Effectiveness and Student Well-being* Hans Henrik Knoop, Mirna Nel, Sufen Chen, Rebecca Shankland, Llewellyn Ellardus Van Zyl, Matthew Cole, 2022-11-08 The human dilemma of displacement Alfred R. Brunsdon, 2020-12-31 In this book social responsive theological research converges to provide practical theological and ecclesiological perspectives on the growing human dilemma of displacement The book presents the research of practical theologians a missiologist and a religious practitioner whose work pertains first and foremost to the South African context The different fields of expertise of the contributors within the broader field of practical theology worked towards a unique compilation of themes each relevant to the issue at stake The majority of chapters are theoretically orientated except where authors refer to empirical work conducted during previous research The main contribution of this collaborative work is to be sought in the practical theological and ecclesiological perspectives it provides It engages the critical questions of what kind of church we need and what kind of care we should provide in the face of the growing predicament of human displacement The theological and theoretical principles uncovered in the different chapters will be of use to theologians from all theological subdisciplines as well as to religious practitioners and leaders of faith communities that are challenged with the growing realities of strangers on their doorsteps and in their pews Handbook of Academic Integrity Sarah Elaine Eaton, 2023-12-04 The book brings together diverse views from around the world and provides a comprehensive overview of academic integrity and how to create the ethical academy At the same time the Handbook does not shy away from some of the vigorous debates in the field such as the causes of academic integrity breaches There has been an explosion of interest in academic integrity in the last 20 30 years New technologies that have made it easier than ever for students to cut and paste coupled with global media scandals of high profile researchers behaving badly have resulted in the perception that plagiarism is on the rise This in combination with the massification and commercialisation of higher education has resulted in a burgeoning interest in the importance of academic integrity how to safeguard it and how to address breaches appropriately What may have seemed like a relatively easy topic to address students copying sources without attribution has in fact turned out to be a complex interdisciplinary field of research requiring contributions from linguists psychologists social scientists anthropologists teaching and learning specialists mathematicians accountants medical doctors lawyers and philosophers to name just a few Because of this broad interest and input this handbook serves as the single authoritative reference work which brings together the vast growing interdisciplinary and at times contradictory body of literature For both established researchers practitioners and those new to the field this Handbook provides a one stop shop as well as a launching pad for new explorations and discussions Higher Education in the Face of a Global Pandemic, 2022-02-28 The book reflects on the extent to which the coronavirus COVID 19 pandemic influenced the education system in Africa notably South Africa The

advent of the pandemic has brought a new context to the challenges of access deepening the precarious position of African higher education systems The pandemic underscored that African higher education systems are fragile and not uniformly resilient The book discusses the challenges created or further entrenched by COVID 19 and how the typology of inequality across the differentiated institutions impacted the management of education delivery during COVID 19 Per se lessons learned were documented to inform decision making and practice while drawing conclusions for future usage Even though the shift to emergency remote teaching was not foreseen and thus not coordinated the authors argue that students learning styles perceptions of online learning and digital pedagogy should be considered in the post COVID 19 curricula development processes

examine the roles played by higher education by language policies and by the intersections of these policies and ethnolinguistic identities in either constructing and perpetuating or deconstructing ethnolinguistic identities upon which the sector was founded The introductory chapter lays out the background to the entire book with an emphasis on the policy and practice perspectives on the intersections The middle chapters describe the so called White Universities Black Universities and Middle Man Minorities Universities The final chapter maps out future directions of the discourses on language and identity formation in South Africa s higher education
