Teaching the Silk Road Jacqueline M. Moore, Rebecca Woodward Wendelken, 2012-02-01 The romance of the journey along the Silk Road with its exotic locales and luxury goods still excites the popular imagination The trade route between China and Central Asia that flourished from about 200 BCE to the 1500s the Silk Road can provide great insight for contemporary higher education curricula Indeed with people plants animals ideas and beliefs traversing it the Silk Road is now considered both a metaphor of globalization and an early example of it Teaching the Silk Road highlights the reasons to incorporate this material into courses and shares resources to facilitate that process It is intended for those who are not Silk Road or Asian specialists but who wish to embrace a global history and civilizations perspective in teaching as opposed to the more traditional world history view that shows impacts of other societies on Europe The work explores both classroom and experiential learning and is intentionally interdisciplinary Each essay focuses on pedagogical strategies or themes that teachers can use to bring the Silk Road into the classroom

Partnering with Culturally and Linguistically Diverse Families in Special Education Kristin Vogel-Campbell, 2023-12-06 We are at a critical time in education Too often the dominant voices represent a small portion of the population where those who have been historically marginalized and minoritized are silenced Utilizing first hand accounts of parent and caregiver experiences as they navigate the often complicated process of Special Education services for their children this book contributes to the small but significant body of

work that centers the voices of parents and caregivers of students with IEPs Few recent works provide adequate space for the narratives of families to take center stage *Partnering with Culturally and Linguistically Diverse Families in Special Education* is a collaborative work with families that includes the author's personal reflection at the end of each narrative as well as guiding questions to continue the conversation either as a sole reader or with a cohort This book is geared towards both pre and in service educators and administrators who are seeking to deepen their understanding of parent perspective and how they can tailor their practices to ensure a more inclusive and inviting environment where culturally and linguistically diverse families are seen and valued in school settings In addition professors and instructors in teacher credentialing programs may use this book as a supplement in classes that focus on multicultural education family and community partnerships or IEP regulations and compliance It is the author's intention to present the possibilities that arise when incorporating the histories of diverse families into decision making procedures There is a tremendous amount of cultural wealth that our families and students bring to classrooms every day This is just one snapshot on that journey towards building culturally sustaining relationships with each and every family an educator encounters Persuasion in Society

,2011-04-20 *Persuasion in Society* introduces readers to the rich tapestry of persuasive technique and scholarship interweaving rhetorical critical theory and social science traditions This text examines current and classical theory through the lens of contemporary culture encouraging readers to explore the nature of persuasion and to understand its impact in their lives Employing a contemporary approach authors Herbert W Simons and Jean G Jones draw from popular culture mass media and social media to help readers become informed creators and consumers of persuasive messages This introductory persuasion text offers A broad based approach to the scope of persuasion expanding students understanding of what persuasion is and how it is effected Insights on the diversity of persuasion in action through such contexts as advertising marketing political campaigns activism and social movements and negotiation in social conflicts The inclusion of sender and receiver perspectives enhancing understanding of persuasion in practice Extended treatment of the ethics of persuasion featuring opposing views on handling controversial issues in the college classroom for enhanced instruction Case studies showing how and why people fall for persuasive messages demonstrating how persuasion works at a cognitive level

Evangelical Theology Gerald R. McDermott,2013-12 This volume surveys the state of the discipline on topics of greatest

importance to evangelical theology The authors critically assess the state of the question from both classical and evangelical traditions and propose a future direction for evangelical thinking on the subject *Normal Instructor and Teachers World* ,1922 **English Teaching Forum** ,1970 *Teaching the Media* Andrew Hart,2013-12-16 In **TEACHING THE MEDIA INTERNATIONAL PERSPECTIVES** Andrew Hart initiates a challenging dialogue about approaches to Media teaching in the major English speaking nations of the world including the United States Canada the United Kingdom Australia and South Africa By animating actual lessons and the considered views of classroom practitioners **TEACHING THE MEDIA** encourages readers to develop new perspectives on Media teaching to examine approaches that differ from their own and to reflect critically on their own practices with a view to understanding them more fully and enhancing their effectiveness in the classroom Based on original research that began in England in the early 1990s this is the first international comparative study to focus on Media Education in English speaking countries It systematically examines classroom strategies for Media teaching in the light of the major theoretical paradigms which have emerged globally over the last 50 years It analyses the rich diversity of different educational concerns goals and classroom practices through a series of national studies of teachers and lessons As a result not only do we see how Media is actually taught in range of classroom contexts but existing models of Media teaching can now be more precisely critiqued and made more accessible for further research and development *Working the Ruins* Elizabeth St. Pierre,Wanda Pillow,2002-05-03 From some of the leading feminist scholars in education comes a collection of writings discussing how they use feminist poststructural theory in their classrooms and research Drawing on real life situations in their work they show how using this theory has transformed their work Topics covered include theory in everyday life ethnography writing the body emotions in the classroom qualitative research and gossip as a counter discourse The range of topics processes and styles presented provides the reader with a variety of examples illustrating the diversity and power of the effects of poststructural theory as well as showing the possibilities of work still to be done **The Emergence of the American Mathematical Research Community, 1876-1900** Karen Hunger Parshall,David E. Rowe,1994 This volume traces the transformation of the United States from a mathematical backwater to a major presence during the quarter century from 1876 to 1900 Presenting a detailed study of the major figures involved in this transformation it focuses on the three most influential individuals the British algebraist James Joseph Sylvester the German standard bearer Felix Klein and the American mathematician Eliakim Hastings Moore and on the principal institutions with which they were associated the Johns Hopkins University Gottingen University and the University of Chicago This book further analyzes the research traditions these men and their institutions represented the impact they had on the second generation of American mathematical researchers and the role of the American Mathematical Society in these developments This is the first work ever written on the history of American mathematics during this period and one of the few books that examines the historical development of American mathematics from a wide perspective By

placing the development of American mathematics within the context of broader external factors affecting historical events the authors show how the character of American research was decisively affected by the surrounding scientific educational and social contexts of the period Aimed at a general mathematical audience and at historians of science this book contains an abundance of unpublished archival material numerous rare photographs and an extensive bibliography **Teaching Elementary Social Studies** James A. DuPlass, 2008 Written for the elementary social studies methods course this interactive program combines features of a textbook and a workbook with thorough integration between the print text and a dynamic web site Increasingly majors in elementary education if not the population at large are more attuned to reading interactive material with relatively brief narrative bulleted items text boxes and targeted messages like web pages rather than traditional denser text To accommodate these preferences the layout of the print text features a larger than usual font an 8 x 11 trim size and spiral binding and the content includes an abundance of bulleted lists shaded text boxes and contemporary graphics The program's interactive approach and flexibility allow the professor to model the kinds of teaching principles and practices that students will want to use in their own elementary school classrooms These principles and practices are integrated throughout the text and include a focus on active learning strategies application of constructivist principles focus on Big Ideas and thinking skills use of the Internet and modeling of Best Practices and Performance based assessments based on INTASC and NCATE standard Thus the book will serve as a springboard for classroom activities web site explorations and or instructor led activities
