Contemporary Customary Land Issues in Africa J. Oloka-Onyango, Bridget Bwalya Umar, 2018-07-26 This book examines current trends in customary land issues in Africa focusing on the practice of converting customary land into

leasehold tenure particularly in Zambia Since the enactment of the 1995 Lands Act No 29 in Zambia conversion of customary land has become a controversial policy raising questions about the future of customary land and rural communities and the role of traditional authorities in a changing environment Alienating customary land into leasehold tenure has serious implications for local and national politics and gender dynamics Analysis of these trends suggests that the policy of creating land markets on customary land is subjecting customary systems to the forces of change However governments that have adopted this policy have not by and large adopted measures to respond to these challenges Although customary tenure is widely believed to be resilient it is not clear how the customary system will navigate the current winds of change Chapters in this book draw from the Land Use and Rural Livelihoods in Africa Project LURLAP a collaborative research project undertaken by staff and students at the University of Cape Town and the University of Zambia
