SEAT BELT

Do not move to this stage until the child fits the adult seat belt properly, typically when 4' 9" in height.

- **Age is important** The younger children are, the more fragile they are, and the more protection they need.
- **Know the limits!** ALWAYS follow the weight and height limits of the car seat.
- **Fits your vehicle** Not every car seat can be installed correctly in every car, try before you buy.

- **Easy for you to use** Try out the features of the car seat, choose one that will make it easy for you to use correctly every time.
- **Maturity matters** A booster is designed for children mature enough and big enough to sit still in the proper position for the whole ride.
