True Story This Is An Exaggeration English Edition:

How I Tried to Kill the President Mario Barbosa Villas Boas, This is a real autobiographic story No it is not the confession of a crime How so the author tried to kill the President and did not commit a crime Simple By criminally suing the President for a crime punishable with death penalty No the author did not ask the Public Attorney to do so The author sued himself the President and two of his ministers This might sound strange for many people Yes it is However in 1988 Brazil promulgated a new constitution and the deputies that wrote it put in the items of article 5 which list the individual rights of people the following command LIX private lawsuit shall be admitted in crimes of public lawsuit if this is not filed within the legal term For those who are not familiar with law jargon Almost all crimes are of public lawsuit type i e only the public attorney can start the lawsuit However this constitutional command allows a citizen to start the lawsuit that normally only the public attorney could do if he after having everything he needs to start the lawsuit fails to do that within the legal term which for almost all crimes very few exceptions is 5 days if the defendant is arrested or 15 days otherwise I believe those who wrote this did not understand what they did Brazilian law allows a citizen to start a public criminal lawsuit but with a lot of restrictions Once this was included in the constitution all of those restrictions became unconstitutional since the highest law states this is a civil right and the restrictions are not mentioned there Not even indirectly by mentioning the law For more details on how the author did so read this book that tells only the first part of the story But it is enough to describe what is probably one of the most bizarre lawsuits that ever happened **We Believe...** Roy E. Bourque, 2021-02-24 We Believe A

Journey into Christ Consciousness By Roy E Bourque After a profound spiritual experience at the age of nine the author found clarity in some of what the church was teaching while bringing into question other teachings of the church Eleven years later during a nuclear physics lecture this spiritual experience coincided with what the instructor was teaching Numerous additional spiritual experiences would soon follow We Believe A Journey into Christ Consciousness details the bridge that was formed between science and spirituality from those experiences Since that time the author has researched religious history looking for connections that would correlate modern science with what the ancient writers knew This endeavor has brought clarity to much of what the church teaches as well as serving as the basis to weed out misconceptions that have muddled up the waters This book may serve the reader who is looking for connections between science and religion
