

What does this mean?

No person falls 100% into a single personality type. The percentages let you know what areas of your personality are most present. Think what parts of me would someone first notice. No personality type is "better" than the other but some strengths can be advantageous depending on the situation. Sometimes an analytical mind is helpful while other times a creative personality can be exactly what the team needs.

Science Teaching/science Learning Elnora S. Harcombe, 2001-01-01 Science Teaching Science Learning based on a model professional development program gives powerful proof that urban teachers can ignite curiosity and promote deep understanding in children when provided with the necessary intellectual infrastructure including a complex balance of increased science knowledge a safe environment for professional experimentation and a long term

interaction with colleagues The ensuing invigoration and renewed dedication of program participants belies the inevitability of the projected national science teacher shortage Harcombe breaks new ground demonstrating that when professional teacher development is based on constructivist learning theory and framed in the knowledge domain of the sciences it empowers teachers to dramatically change what they know how they teach and what their students learn **Changing the Message** Jeff Albin,2004 Occupational Analysis and Group Process Jane Clifford O'Brien,Jean W.
