Tshwane Metro Police Job 2015 2016

Christina Culwick

Tshwane Metro Police Job 2015 2016:

Quality of Life IV Survey (2015/16): City Benchmarking Report Christina Culwick, 2018-09-25 South Africa's post apartheid government has been successful in raising the standard of living for millions of people. It has provided them with access to housing and basic services, improved health and education, and developed social services and urban amenities where none existed before. However, there remain many thorny development challenges that government is at least at present poorly equipped to address. Consequently, there remains deep dissatisfaction among many residents, which at various times and in certain contexts has led to widespread community protests. This report stems from the premise that data and analysis thereof are critical for local and provincial governments in Gauteng to understand where progress has been made and where intervention is required. The City Benchmarking Report presents some key findings from the Quality of Life IV 2015/16 survey at the municipal and provincial levels. The results provide insight into a range of objective indicators such as access to basic services, travel patterns, and economic activity, as well as respondents' subjective opinions, perceptions, and levels of satisfaction. This combination allows us to gain a multi-dimensional understanding of quality of life in the province, as well as some of the drivers that improve or worsen it. While there are many aspects of quality of life measured by the survey, this report focuses on specific issues related to municipal service access, satisfaction with services received, satisfaction with the municipality providing those services, and the relationship between access, satisfaction, and overall quality of life. Although this report allows government residents and stakeholders to compare municipalities with one another, its benchmarking analysis should not be read as a competitive scoring of cities, which in turn becomes a basis for municipalities to market themselves as having the highest quality of life or to vie with one another over who has the best performance. Some municipalities do better on some variables but worse on others. The point of this report is to help each municipality understand its own strengths and weaknesses in relation to others and to the broader Gauteng context. Citizen and Pariah Vanya Gastrow, 2022-03-01 Citizen and Pariah explores the fragility of law, pluralism, and democracy in South Africa by investigating Somali informal shopkeepers' experiences of crime, justice, and regulation in the country. Through a narrative account of their local experiences, the book sheds light on the legal and political predicaments they face. Comparative Human Rights Law Sandra Fredman, 2018-11-08 Courts in different jurisdictions face similar human rights questions. Does the death penalty breach human rights? Does freedom of speech include racist speech? Is there a right to health? This book uses the prism of comparative law to examine the fascinating ways in which these difficult questions are decided. On the one hand, the shared language of human rights suggests that there should be similar solutions to comparable problems. On the other hand, there are important differences. Constitutional texts are worded differently, courts have differing relationships with the legislature, and there are divergences in socio-economic development, politics, and history. Nevertheless, there is a growing transnational conversation between courts, with cases in one jurisdiction being cited in others. Part I sets out the cross-cutting themes.

which shape the ways judges respond to challenging human rights issues It examines when it is legitimate to refer to foreign materials how universality and cultural relativity are balanced in human rights law the appropriate role of courts in adjudicating human rights in a democracy and the principles judges use to interpret human rights texts The book is unusual in transcending the distinction between socio economic rights and civil and political rights Part II applies these cross cutting themes to comparing human rights law in the US UK South Africa Canada and India Its focus is on seven particularly challenging issues the death penalty abortion housing health speech education and religion with the aim of inspiring further comparative examination of other pressing human rights issues
