Computational Science and Its Applications – ICCSA 2017 Osvaldo Gervasi, Beniamino Murgante, Sanjay Misra, Giuseppe Borruso, Carmelo M. Torre, Ana Maria A.C. Rocha, David Taniar, Bernady O. Aduhan, Elena Stankova, Alfredo Cuzzocrea, 2017-07-13 The six volume set LNCS 10404 10409 constitutes the refereed proceedings of the 17th International Conference on Computational Science and Its Applications ICCSA 2017 held in Trieste Italy in July 2017 The 313 full papers and 12 short papers included in the 6 volume proceedings set were carefully reviewed and selected from 1052 submissions Apart from the general tracks ICCSA 2017 included 43 international workshops in various areas of computational sciences ranging from computational science technologies to specific areas of computational sciences such as computer graphics and virtual reality Furthermore this year ICCSA 2017 hosted the XIV International Workshop On Quantum Reactive Scattering The program also featured 3 keynote speeches and 4 tutorials

**Polymer Nanocomposites for Advanced Engineering and Military Applications** Ramdani, Nouredine, 2019-04-01 The field of polymer nanocomposites has become essential for engineering and military industries over the last few decades as it applies to computing sensors biomedical microelectronics hard coating and many other domains Due to their outstanding mechanical and thermal features polymer nanocomposite materials have recently been developed and now have a wide range of applications Polymer Nanocomposites for Advanced Engineering and Military Applications provides emerging research on recent advances in the fabrication methods properties and applications of various nano fillers including surface modification methods and chemical functionalization Featuring coverage on a broad range of topics such as barrier properties biomedical microelectronics and matrix processing this book is ideally designed for engineers industrialists chemists government officials military professionals practitioners academicians researchers and students

**ECRM2016-Proceedings of the 15th European Conference on Research Methodology for Business Management** " Vladlena Benson, Fragkiskos Filippaios, 2016-05-20 **Encyclopedia of Polymer Applications, 3 Volume Set** Munmaya Mishra, 2018-12-17 Undoubtedly the applications of polymers are rapidly evolving Technology is continually changing and quickly advancing as polymers are needed to solve a variety of day to day challenges leading to improvements in quality of life The Encyclopedia of Polymer Applications presents state of the art research and development on the applications of polymers This groundbreaking work provides important overviews to help stimulate further advancements in all areas of polymers This comprehensive multi volume reference includes articles contributed from a diverse and global team of renowned researchers It offers a broad based perspective on a multitude of topics in a variety of applications as well as detailed research information figures tables illustrations and references The encyclopedia provides introductions classifications properties selection types technologies shelf life recycling testing and applications for each of the entries where applicable It features critical content for both novices and experts including engineers scientists polymer scientists materials scientists biomedical engineers macromolecular chemists researchers and

students as well as interested readers in academia industry and research institutions      Design and Applications of Nanostructured Polymer Blends and Nanocomposite Systems Sabu Thomas,Robert Shanks,Sarath Chandran,2015-09-22

Design and Applications of Nanostructured Polymer Blend and Nanocomposite Systems offers readers an intelligent thorough introduction to the design and applications of this new generation of designer polymers with customized properties The book assembles and covers in a unified way the state of the art developments of this less explored type of material With a focus on nanostructured polymer blends the book discusses the science of nanostructure formation and the potential performance benefits of nanostructured polymer blends and composites for applications across many sectors electronics coatings adhesives energy photovoltaics aerospace automotive and medical devices biocompatible polymers The book also describes the design morphology and structure of nanostructured polymer composites and blends to achieve specific properties Covers all important information for designing and selecting the right nanostructured polymer system Provides specialized knowledge on self repairing nanofibre and nanostructured multiphase materials as well as evaluation and testing of nanostructured polymer systems Serves as a reference guide for development of new products in industries ranging from electronics coatings and energy to transport and medical applications Describes the design morphology and structure of nanostructured polymer composites and blends to achieve specific properties      Polyolefin Fibres S C O Ugbohue,2017-06-09

Polyolefin Fibres Structure Properties and Industrial Applications Second Edition explores one of the most widely used commercial polymers with a focus on the most important polyolefins namely polyethylene polypropylene and polyolefin bicomponent fibres These versatile fibres are durable chemically resistant lightweight economical and functional This new edition has been updated and expanded to include cutting edge research on a broad range of advanced applications Part I covers the structure and properties of polyolefin fibres incorporating a new chapter on the environmental aspects of polyolefin use Part II examines the methods for improving the functionality of polyolefins providing essential information for those engaged in developing high performance materials A final group of chapters addresses how polyolefin fibres can be incorporated into specific textile applications such as automotive geotextile biomedical and hygiene products and explores potential future development This book is an essential reference for textile technologists and manufacturers polymer and fibre scientists yarn and fabric manufacturers biomedical and device engineers and industrialists and researchers Introduces the types properties and structure of polyolefin fibers for readers new to the polyolefins field Examines methods to improve the functionality of polyolefin fibers providing essential information for textile technologists and research and development managers engaged in developing high performance materials Presents existing and potential applications of polyolefin fibers exploring how they can expand the range of commercial polyolefin based products

*Transactions on Engineering Technologies* Sio-Iong Ao, Haeng-Kon Kim, Mahyar A. Amouzegar, 2021-01-04 This book contains a selection of revised and extended research articles written by prominent researchers participating in the 27th World Congress on Engineering and Computer Science WCECS 2019 which was held in San Francisco USA on October 22-24 2019 Topics covered include engineering mathematics electrical engineering communications systems computer science chemical engineering systems engineering manufacturing engineering and industrial applications With contributions carefully chosen to represent the most cutting edge research presented during the conference the book contains some of the state of the art in engineering technologies and the physical sciences and their applications and serves as a useful reference for researchers and graduate students working in these fields

*Social Media and Networking: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2015-07-31 In the digital era users from around the world are constantly connected over a global network where they have the ability to connect share and collaborate like never before To make the most of this new environment researchers and software developers must understand users needs and expectations Social Media and Networking Concepts Methodologies Tools and Applications explores the burgeoning global community made possible by Web 2.0 technologies and a universal interconnected society With four volumes of chapters related to digital media online engagement and virtual environments this multi volume reference is an essential source for software developers web designers researchers students and IT specialists interested in the growing field of digital media and engagement This four volume reference includes various chapters covering topics related to Web 2.0 e governance social media activism internet privacy digital and virtual communities e business customer relationship management and more

**Ubiquitous Inclusive Learning in a Digital Era** Ossiannilsson, Ebba, 2018-09-21 In open education equality accessibility inclusiveness and lifelong learning are key concerns To meet adapt to and anticipate global goals and needs as well as address open education concerns educational programs require systemic changes and innovative leadership for advanced learning environments Ubiquitous Inclusive Learning in a Digital Era provides innovative insights into the issues and current trends on open online flexible education and technology enabled learning The content within this publication represents the work of open online learning hybrid learning and inclusiveness It is designed for educational administrators

teachers librarians government officials and graduate level students seeking covering on topics centered on educational technologies and equal access education

**Fungal Cell Factories for Sustainable Nanomaterials Productions and Agricultural Applications** Kamel A Abd-Elsalam, 2022-10-26 Fungal Cell Factories for Sustainable Nanomaterials Productions and Agricultural Applications explores the mycogenic synthesis of many metal nanoparticles including processing processes environmental protection and future perspectives Nanomaterials including silver gold palladium copper zinc selenium titanium dioxide metal sulphide cellulose have been formed by major fungal genes such as mushrooms Fusarium Trichoderma endophytic fungi and yeast in addition to lichens Understanding the exact process involved in the synthesis of nanoparticles and the effects of various factors on the reduction of metal ions can help to improve low cost strategies for the synthesis and extraction of nanoparticles Other sections focus on a new framework for the production of nano antimicrobial the use of myconanoparticles against plant diseases post harvest antibiotics mycotoxin control and plant pests in addition to certain animal pathogens Myconanomaterials are well developed with great potential and promise for advanced diagnostics biosensors precision farming and targeted smart delivery systems Assesses the impact of a variety of copper based nanostructures on agri food sectors addressing the most relevant knowledge gaps Explores the opportunities that myconanotechnology can provide for industrial applications Explains the major challenges of applying myconanotechnology at an industrial scale

**Silver Nanomaterials for Agri-Food Applications** Kamel A. Abd-Elsalam, 2021-08-14 Silver Nanomaterials for Agri Food Applications explores how silver based nanomaterials are being used to create more efficient systems and products across the agri food sector In particular the book covers silver nanomaterials as antimicrobial agents in food science for plant protection and for water purification Sections highlight the effect of silver nanoantimicrobials and drug synergism on drug resistant pathogens offer an overview of silver nanomaterials based nanosensors in agri food applications explore the use of silver nanostructures in plant science applications cover plant protection applications describe silver nanomaterial applications in the removal of dyes and pesticides from wastewater and more Explores the applications of silver based nanomaterials for plant protection water treatments and in food science Outlines why silver based nanomaterials have properties that make them beneficial for protection against infectious diseases Assesses the challenge of integrating silver based nanomaterials into agricultural systems

**Socially Just Pedagogies** Rosi Braidotti, Vivienne Bozalek, Tamara Shefer, Michalinos Zembylas, 2018-06-14 This book addresses contemporary philosophical issues in higher education and how we can create socially just pedagogies and a socially just university Providing a forum for thinking through how critical posthumanism affect theory and feminist new materialisms provide a useful lens for higher education and shows how these standpoints can benefit methods and practices of learning and teaching Gross inequalities in higher education continue to affect pedagogical practices across geopolitical contexts and there is a need to consider new theories which call into question the commonplace humanist assumptions currently dominating the discourse around social justice in this context However

scholarship on the affective turn critical posthumanism and new material feminisms opens both new possibilities and responsibilities for higher education pedagogies The approaches of this book also provide imaginative ways of engaging with current dissatisfactions with higher education from the marketization of education to issues of racism discrimination and lack of diversity Of international relevance this collection particularly foreground southern contexts and case studies such as the student activism in South African universities that has sparked a global project of decolonization and social justice in educational institutions This book is an urgent call to reconceptualize rethink and reconfigure pedagogies in higher education and the implications for future citizenship and social participation

*Transformation of the University* Søren S.E. Bengtsen, Ryan Evely Gildersleeve, 2022-04-25 *Transformation of the University* imagines preferable futures for the university building hope for the institution's necessary transformation It transcends old criticisms and presents fresh ideas on how the institution might be conceived organised and put into practice while safeguarding that which makes it a university the pursuit of knowledge This book is divided into three main parts Part One Knowledge assumes the role of the university in generating knowledge for the benefit of society Part Two Cultural Growth expands on how the university might contribute to and benefit from the cultural growth of society with both explicit and implicit connections to social and epistemic in justice and Part Three Institutions focuses on imaginative processes for enacting the university as an institution that meets the unforeseen future challenges facing societies around the world With contributions from scholars across the world *Transformation of the University* is an essential read for all academics practitioners institutional leaders and broad social thinkers who are concerned with the future of the university and its contributions to society

**ECISM 2017 11th European Conference on Information Systems Management**, 2017-09-14

*Advanced Composites in Aerospace Engineering Applications* Norkhairunnisa Mazlan, S.M. Sapuan, R.A. Ilyas, 2022-02-21 This book presents an authoritative account of the potential of advanced composites such as composites biocomposites composites geopolymer hybrid composites and hybrid biocomposites in aerospace application It documents how in recent years composite materials have grown in strength stature and significance to become a key material of enhanced scientific interest and resultant research into understanding their behavior for selection and safe use in a wide spectrum of technology related applications This collection highlights how their unique combination of superior properties such as low density high strength high elastic modulus high hardness high temperature capability and excellent chemical and environmental stability are optimized in technologies within these fields

**100 Years of World Wars and Post-War Regional Collaboration** Kumiko Haba, Alfredo Canavero, Satoshi Mizobata, 2023-01-01 This book is about the 100 years of World Wars and Regional Collaboration in the twentieth and twenty-first centuries investigating and considering how to foster Good Governance and New World Order The world is currently at the historical turning point The twentieth century witnessed two World Wars WWI and WWII followed by the Cold War that dominated geopolitics Amidst the post-war devastation the European Community soon succeeded by the

European Union came into being Peaceful governance was nurtured by building economic collaboration and institutions and by establishing liberalism democracy and the rule of law In Asia the Association of Southeast Asian Nations ASEAN also pursued regional governance after WWII but in East Asia the American Divide and Rule policy is continuing until now by the influence of China North Korea and Russia In the contemporary world in the twenty first century a new nationalism Populism and Authoritarianism are spreading At the same time a wave of rapid economic growth is occurring in developing countries especially in China and India Destabilization is spreading in East Asia Southeast Asia and South Asia concurrently with the search for Democratization Through the two World Wars and the Cold War which originated in 100 years of the twentieth century what types of regional institutions and governance have been developed to avoid endless wars and conflicts In this book it is examined what kind of order is necessary to stabilize the regions from conflicts and wars in both Europe and Asia The themes of the Tokyo Conferences and the Kyoto Conference by SCJ Science Council of Japan in December 2020 were investigated and clarified how the countries that were caught up in global wars have considered regional coexistence in each period and how to establish peace stability and prosperity by means of new institutionalizations norms and the rule of law The aim of the authors is to examine and discuss How to create New World Order Regional Collaborations and Good Governance in the historical power transition period This book can inspire many scholars and young researchers to join in discussing how to create New World Order in the twenty first century from the midst of the unstable situations of the global geopolitics

*Leap 4.0. African Perspectives on the Fourth Industrial Revolution* Zamanzima Mazibuko-Makena,Erika Kraemer-Mbula.,2021-04-09 Leap 4 0 African Perspectives on the Fourth Industrial Revolution seeks to identify the challenges and opportunities the 4IR presents to South Africa and the rest of the African continent especially to workers and marginalised sectors of society Authors examine the prerequisites for the successful introduction of the 4IR including infrastructure skilled personnel and appropriate regulation They underline the importance of inclusive innovation with a deliberate objective to create net new jobs and reduce inequality The 4IR is well established in many parts of the world with technological advances driving profound social and economic change However for many developing countries particularly countries in Africa the 4IR may not offer the anticipated leap forward There is a danger that the continent may find itself dictated to by experiences that are not in tune with its social contexts

Research Anthology on Vocational Education and Preparing Future Workers Management Association, Information Resources,2022-04-08 Many students across the globe seek further education for future employment opportunities Vocational schools offer direct training to develop the skills needed for employment New emphasis has been placed on reskilling the workforce as technology has infiltrated all aspects of business Teachers must be prepared to teach these new skill requirements to allow students to directly enter the workforce with the necessary competences intact As the labor market and industry are changing it is essential to stay current with the best teaching practices within vocational education courses to provide the future workforce with the proper tools and

knowledge The Research Anthology on Vocational Education and Preparing Future Workers discusses the development opportunities and challenges of vocational education courses and how to best prepare students for future employment It presents the best practices in curriculum development for vocational education courses and analyzes student outcomes Covering topics such as industry academia collaboration student satisfaction and competency based education this major reference work is an essential resource for academic administration pre service teachers educators of vocational education libraries employers government officials researchers and academicians
