Voigt,2011 TRB s National Cooperative Highway Research Program NCHRP Synthesis 420 Operational and Institutional Agreements That Facilitate Regional Traffic Signal Operations RTSOPs identifies and highlights critical attributes of successful RTSOPs across the United States Regions can use RTSOPs to help improve traffic flow as it crosses from one jurisdiction to another A central focus of these programs is the coordination of signal timing on multi jurisdictional arterials however RTSOPs can also facilitate the consideration of other traffic operations measures to improve regional mobility Many RTSOPs have been established through regional metropolitan planning organizations and successful RTSOPs also have been established by other organizations including state and local departments of transportation and government corporations      The Vagabonds Jeff Guinn,2020-11-17 A fascinating slice of rarely considered American history Booklist the story of Henry Ford and Thomas Edison whose annual summer sojourns introduced the road trip to our culture and made the automobile an essential part of modern life In 1914 Henry Ford and naturalist John Burroughs visited Thomas Edison in Florida and toured the Everglades The following year Ford Edison and tire maker Harvey Firestone joined together on a summer camping trip and decided to call themselves the Vagabonds They would continue their summer road trips until 1925 when they announced that their fame made it too difficult for them to carry on Although the Vagabonds traveled with an entourage of chefs butlers and others this elite fraternity also had a serious purpose to examine the conditions of America s roadways and improve the practicality of automobile travel Cars were unreliable and the roads were even worse But newspaper coverage of these trips was extensive and as cars and roads improved the summer trip by automobile soon became a desired element of American life The Vagabonds is a portrait of America s burgeoning love affair with the

automobile NPR but it also sheds light on the important relationship between the older Edison and the younger Ford who once worked for the famous inventor The road trips made the automobile ubiquitous and magnified Ford's reputation even as Edison's diminished The automobile would transform the American landscape the American economy and the American way of life and Guinn brings this seminal moment in history to vivid life
