Urban Landscape

Ecology Robert A. Francis, James D.A. Millington, Michael A. Chadwick, 2016-04-14 The growth of cities poses ever increasing challenges for the natural environment on which they impact and depend not only within their boundaries but also in surrounding peri urban areas Landscape ecology the study of interactions across space and time between the structure and function of physical biological and cultural components of landscapes has a pivotal role to play in identifying sustainable solutions This book brings together examples of research at the cutting edge of urban landscape ecology across multiple contexts that investigate the state maintenance and restoration of healthy and functional natural environments across urban and peri urban landscapes An explicit focus is on urban landscapes in contrast to other books which have considered urban ecosystems and ecology without specific focus on spatial connections It integrates research and perspectives from across academia public and private practitioners of urban conservation planning and design It provides a much needed summary of current thinking on how urban landscapes can provide the foundation of sustained economic growth prospering communities and personal well being

Beyond the Wage William Monteith, Dora-Olivia Vicol, Philippa Williams, 2021-06-22 Recent developments in the organization of work and production have facilitated the decline of wage employment in many regions of the world However the idea of the wage continues to dominate the political imaginations of governments researchers and activists based on the historical experiences of industrial workers in the global North This edited collection revitalises debates on the future of work by challenging the idea of wage employment as the global norm Taking theoretical inspiration from the global South the authors compare lived experiences of ordinary work across taken for granted conceptual and geographical boundaries from Cambodian brick kilns to Catalanian cooperatives Their contributions open up new

possibilities for how work identity and security might be woven together differently This volume is an invaluable resource for academics students and readers interested in alternative and emerging forms of work around the world *Adaptation mechanisms of grass and forage plants to stressful environments* Jing Zhang, Maofeng Chai, Sergey Shabala, Kehua Wang, Jin-Lin Zhang, 2023-04-18 *Financing the 2016 Election* David B. Magleby, 2019-04-30 Money and politics in an election that broke the mold Beginning with the 1960 election readers could turn to one book for an authoritative and comprehensive examination of campaign finance at the federal level Now the latest in this respected series *Financing the 2016 Election* explores the role of money in one of the most unconventional elections in modern American history A team of leading scholars has dug into the roles played by political parties and special interest groups including their Super PACS in the presidential and congressional elections of 2016 David Magleby and his team of experts examined Federal Elections Commission reports and interviewed dozens of key participants including representatives of virtually all the major interest groups active in the 2016 election cycle They place that election in the context of how U S elections have been financed during recent decades a context that illustrates how dramatically different campaign finance is today from the past Among the most important changes has been the growth of so called Super PACS which have become increasingly important both in the financing they provide candidates and in their ability to act independently both for and against candidates Overall Super PACS doubled their spending in 2016 from four years earlier Taking a comprehensive approach this book helps readers understand how the financing of elections including the increasing reliance by candidates on outside special interest groups ultimately affects politics and public policy **Gangland** Laura L.
