Turning Point English Edition:

Propagandam. English version Ilia Margolin, 2024-11-28 In a world where information becomes a weapon and public opinion a battleground for hidden conflicts the art of propaganda takes on a special significance What is propaganda An embodiment of evil or a tool capable of inspiring and leading to change Together we will explore how to build defenses that distinguish manipulation from truth and examine the ethical boundaries separating honest persuasion from cynical exploitation Translation of the book with the support of the Mentalit project **Turning Points** Ansgar Nünning, Kai Marcel Sicks, 2012-10-30 At times of crisis and revolution such as ours diagnoses of crucial junctures and ruptures turning points in the continuous flow of history are more prevalent than ever Analysing literary cinematic and other narratives the volume seeks to understand the meanings conveyed by different concepts of turning points the alternative concepts to which they are opposed when used to explain historical change and those contexts in which they are unmasked as false and over simplifying constructions Literature and film in particular stress the importance of turning points as a sensemaking device as part of a character s or a community s cultural memory while at the same time unfolding the constructive and hence relative character of turning points Offering complex reflections on the notion of turning points literary and filmic narratives are thus of particular interest to the present volume **Competition Power March 2019 Monthly eBook (English Edition)**

True Europe Pope Benedict XVI,2024-04-29 The ecological movement discovered that nature prescribes for us a moderation that we cannot ignore with impunity Unfortunately human ecology has still not been made concrete A human being too has a nature that is prescribed for him and violating or denying it leads to self destruction Benedict XVI from the preface This collection of selected works is Benedict XVI s heartfelt call for Europe to rediscover its true origin and identity in order to become once again a beacon of beauty and humanity for the world Such a revival would be not simply about imposing the truths of faith as the foundation of Europe but about making a fundamental choice for justice to live as if God exists rather than as if he does not Just as Pope John XXIII once called on the great nations of the earth to avoid a devastating nuclear war Benedict XVI addresses not only Europe but the whole West so that by again finding their own soul as a people they can save the world from self destruction both physical and spiritual With his characteristic clarity immediate accessibility and at the same time depth the Pope Emeritus magnificently outlines here the idea of Europe that undoubtedly inspired its Founding Fathers and is the basis for its greatness the definitive dimming of this ideal would ratify its complete and irreversible decline
