Steuer, Michelle Engeler, Elísio Macamo, 2017-11-15 The time to come as well as the exploration thereof remains elusive for social actors and social scientists alike The contributors accept the challenge to depict young men and women's future creating activities in urban contexts of sub-Saharan Africa Very consciously they study young graduates having obtained a university degree and provide a vivid picture of their strategies to socially grow older by doing adulthood in contexts of great uncertainty The examples include Burkina Faso Guinea Ethiopia Mali and Tanzania visually enriched through pictures taken by young Malian photographers      *Metodologia de Avaliação de Processos de Transferência de Tecnologia* Guilherme Berriel, 2021-11-29 Quando o Brasil decide realizar uma grande aquisição de equipamentos militares a objeção mais corriqueira reside no cálculo quase automático de quanto tal valor poderia suportar outras necessidades com maior sensação de urgência

por parte da população. Quantos bolsos familiares ou auxílios emergenciais ou quaisquer outros programas sociais não poderiam ser financiados com a verba destinada ao programa de construção do submarino de propulsão nuclear. Qual a relevância disso para um país que não participa de uma guerra há quase oito décadas. Para contribuir com a reflexão sobre essas e outras questões, este livro também se debruça sobre a relação entre Ciência, Tecnologia e Inovação, Defesa e Desenvolvimento. O desejo é trazer ao leitor o entendimento de que as aquisições militares como políticas públicas quando bem concebidas e implementadas e avaliadas além de assegurar a própria segurança e a proteção de seu povo e de seus cobitados recursos naturais podem proporcionar o avanço tecnológico do país, a geração de empregos e a ampliação da participação do Brasil em um nicho relevante do mercado internacional, repercutindo positivamente em diversas questões socioeconômicas. Mas para que isso aconteça são necessárias ferramentas que contribuam para a avaliação transparente desses projetos. A proposta desta obra é sugerir uma metodologia de avaliação de processos de transferência de tecnologia utilizando como exemplos os casos do PROSUB do Guarani e do H XBR.

Decadent Romanticism: 1780-1914 Kostas Boyiopoulos, Mark Sandy, 2016-04-08. For Decadent authors Romanticism was a source of powerful imaginative revisionism, perversion, transition and partial negation. But for all these strong Decadent reactions against the period, the cultural phenomenon of Decadence shared with Romanticism a mutual distrust of the philosophy of utilitarianism and the aesthetics of neo-Classicism. Reflecting on the interstices between Romantic and Decadent literature, Decadent Romanticism reassesses the diverse and creative reactions of Decadent authors to Romanticism between 1780 and 1914 while also remaining alert to the prescience of the Romantic imagination to envisage its own distorted, darker, perverted other self. Creative pairings include William Blake and his Decadent critics, the recurring figure of the sphinx in the work of Thomas De Quincey and Decadent writers, and Percy Shelley with both Mathilde Blind and Swinburne. Not surprisingly, John Keats's works are a particular focus in essays that explore Keats's literary and visual legacies and his resonance for writers who considered him an icon of art for art's sake. Crucial to this critical reassessment are the shared obsessions of Romanticism and Decadence with subjectivity, isolation, addiction, fragmentation, representation, romance and voyeurism, as well as a poetics of desire and anxieties over the purpose of aestheticism.

*Mesquite* Gary Paul Nabhan, 2018. Winner of a 2019 Southwest Book Award. BRLA. An homage to the useful and idiosyncratic mesquite tree. In his latest book *Mesquite*, Gary Paul Nabhan employs humor and contemplative reflection to convince readers that they have never really glimpsed the essence of what he calls arboreality. As a Franciscan brother and ethnobotanist who has often mixed mirth with earth laughter with landscape food with frolic, Nabhan now takes on a large, many-branched question: What does it mean to be a tree, or accordingly to be in a deep and intimate relationship with one? To answer this question, Nabhan does not disappear into a forest but exposes himself to some of the most austere, hyper-arid terrain on the planet: the Sonoran and Chihuahuan deserts along the US-Mexico border, where even the most ancient perennial plants are not tall and thin but stunted and squat. There, in desert regions that cover more than a third of our continent, mesquite trees have become the staff

of life not just for indigenous cultures but for myriad creatures many of which respond to these nurse plants in wildly intelligent and symbiotic ways In this landscape where Nabhan claims that nearly every surviving being either sticks stinks stings or sings he finds more lives thriving than you could ever shake a stick at As he weaves his arid yarns we suddenly realize that our normal view of the world has been turned on its head where we once saw scarcity there is abundance where we once perceived severity there is whimsy Desert cultures that we once assumed lived in food deserts are secretly savoring a most delicious world Drawing on his half century of immersion in desert ethnobotany ecology linguistics agroforestry and eco gastronomy Nabhan opens up for us a hidden world that we had never glimpsed before Along the way he explores the sensuous reality surrounding this most useful and generous tree Mesquite is a book that will delight mystics and foresters naturalists and foodies It combines cutting edge science with a generous sprinkling of humor and folk wisdom even including traditional recipes for cooking with mesquite
