Nichols,David C. Berliner,2007-03-01 Drawing on their extensive research Nichols and Berliner document and categorize the ways that high stakes testing threatens the purposes and ideals of the American education system For more than a decade the debate over high stakes testing has dominated the field of education This passionate and provocative book provides a fresh perspective on the issue and powerful ammunition for opponents of high stakes tests Their analysis is grounded in the application of Campbell s Law which posits that the greater the social consequences associated with a quantitative indicator such as test scores the more likely it is that the indicator itself will become corrupted and the more likely it is that the use of the indicator will corrupt the social processes it was intended to monitor Nichols and Berliner illustrate both aspects of this corruption showing how the pressures of high stakes testing erode the validity of test scores and distort the integrity of the education system Their analysis provides a coherent and comprehensive intellectual framework for the wide ranging arguments against high stakes

testing while putting a compelling human face on the data marshalled in support of those arguments *High-Stakes Testing*
R. Murray Thomas,2005-03-23 The federal government's No Child Left Behind Act has thrust high stakes testing its goals methods and consequences into the educational limelight The four fold purpose of this book is to describe the nature of high stakes testing identify types of collateral damage that have attended the testing programs analyze methods different groups of people have chosen for coping with the damage and suggest lessons to be learned from the high stakes testing experience The six groups of people whose coping strategies are inspected include politicians and their staffs educational administrators and their staffs parents and the public test makers and test administrators teachers and students Importantly the author avoids aligning himself with the test bashing rhetoric of those who oppose high stakes testing especially the No Child Left Behind Act Key features of this outstanding new book include illustrative cases The book offers more than 350 cases of collateral damage from high stakes testing and people's coping strategies as reported in newspapers over the 2002-2004 period background perspectives Part I examines the influence of high stakes testing on 1 what schools teach 2 how student progress is evaluated 3 how achievement standards are set and 4 how test results are used participant responses Part II which is the heart of the book devotes a separate chapter to the coping strategies of each of the major participants in the high stakes testing movement politicians and their staffs educational administrators and their staffs parents and the public test makers and test givers teachers and students summary chapter The last chapter Lessons to Learn offers suggestions for minimizing collateral damage by adopting alternative approaches not used in the creation of our current high stakes testing programs particularly the federal government's No Child Left Behind Act This book is appropriate for any of the following audiences students taking evaluation or administration courses in schools of education inservice administrators and teachers policy makers and those members of the general public who are concerned about the fate of schooling in America

Stuck in the Shallow End, updated edition Jane Margolis, 2017-02-24 Why so few African American and Latino students study computer science updated edition of a book that reveals the dynamics of inequality in American schools The number of African Americans and Latino as receiving undergraduate and advanced degrees in computer science is disproportionately low And relatively few African American and Latino high school students receive the kind of institutional encouragement educational opportunities and preparation needed for them to choose computer science as a field of study and profession In *Stuck in the Shallow End* Jane Margolis and coauthors look at the daily experiences of students and teachers in three Los Angeles public high schools an overcrowded urban high school a math and science magnet school and a well funded school in an affluent neighborhood They find an insidious virtual segregation that maintains inequality The race gap in computer science Margolis discovers is one example of the way students of color are denied a wide range of occupational and educational futures *Stuck in the Shallow End* is a story of how inequality is reproduced in America and how students and teachers given the necessary tools can change the system Since the 2008 publication of *Stuck in the Shallow End* the book has found an eager audience among teachers school administrators and academics This updated edition offers a new preface detailing the progress in making computer science accessible to all a new postscript and discussion questions coauthored by Jane Margolis and Joanna Goode

New Directions in Assessing Historical Thinking Kadriye Ercikan, Peter Seixas, 2015-02-20 New technologies have radically transformed our relationship to information in general and to little bits of information in particular The assessment of history learning which for a century has valued those little bits as the centerpiece of its practice now faces not only an unprecedented glut but a disconnect with what is valued in history education More complex processes historical thinking historical consciousness or historical sense making demand more complex assessments At the same time advances in scholarship on assessment open up new possibilities For this volume Kadriye Ercikan and Peter Seixas have assembled an international array of experts who have collectively moved the fields of history education and assessment forward Their various approaches negotiate the sometimes conflicting demands of theoretical sophistication empirically demonstrated validity and practical efficiency Key issues include articulating the cognitive goals of history education the relationship between content and procedural knowledge the impact of students language literacy on history assessments and methods of validation in both large scale and classroom assessments *New Directions in Assessing Historical Thinking* is a critical research oriented resource that will advance the conceptualization

design and validation of the next generation of history assessments

Bangladesh Hiranmay Karlekar, 2005 It is I think a timely and sobering reminder of the power of all kinds of fundamentalisms in the contemporary world and that no society is proof against their ravages even those which have prided themselves on their secularism tolerance and pluralism Bangladesh is a country haunted by divisions not only the Partition of India but also that of the War of Liberation and the even more fateful split between Muslim and Bengali which is the more menacing because it exists within individuals within the people themselves Whether the wholeness of a specifically Bengali version of Islam can be restored is the question which this book poses Jeremy Seabrook *The Guardian* This book should ring a warning bell for policymakers in the South Block If you do not agree read Karlekar's chilling tale of the death of Mujibur's dream and that of many others who naively believed in it Kanchan Gupta *India Today* The book unravels how the hate matrix has found a place in a culturally vibrant society that just two decades back asked for freedom from the shackles of an oppressive regime Anju Kumar *The Hindu* Dubbed a hotbed of terrorism across the world Bangladesh is under the spotlight Hiranmay Karlekar's timely book tackles the issue with depth and insight A must read for strategic thinkers and those involved in watching India's neighbourhood *Tehelka* The author argues that the headquarters of Islamic terrorism is shifting from Afghanistan to Bangladesh which he describes as a soft state with an ineffective government and a weak police force *The Pioneer* Karlekar has a long experience of reporting on Bangladesh His book resonates with this experience and with a wealth of details and will help fill the vacuum of information on Bangladesh and its crisis of fundamentalism *The India Express* Bangladesh focuses on the growth of Islamic fundamentalism in Bangladesh Hiranmay Karlekar analyzes in detail the historical social cultural and political circumstances that have led to this and discusses the chances of the situation being altered From a wealth of reliable sources he discusses the circumstances which account for this rise in fundamentalism and he demonstrates the forces that function within the ruling coalition in Bangladesh allowing this rise unchecked Hiranmay Karlekar is Consultant Editor of *The Pioneer* and a member of the Press Council of India During his career he has been Editor of *The Hindustan Times* Deputy Editor of *The Indian Express* and Assistant Editor of *The Statesman* and the erstwhile *Hindusthan Standard* published from Kolkata by the Anandabazar Patrika group

The Great Abdication Alexander Deane, 2016-12-01 The middle class provides British society with its stability and strength According to Deane's contentious thesis our middle class has abstained from its responsibility to uphold societal values and the enormously damaging collapse of our society's norms and standards is largely a result of that abdication The institutions of political and social governance provide a husk of functionality and mask these problems for those that do not wish to see or do not care To restore Britain to something resembling a substantively functioning country the middle classes must reinstate themselves as arbiters of morality be unafraid to judge their fellow men and follow through with the condemnation that necessarily follows when individuals sin against common values

Learning English and Chinese as Foreign Languages Wen-Chuan Lin, 2019-09-19 Learning English and Chinese is becoming increasingly

important to the prospects of young people This book compares English as a Foreign Language teaching in Taiwan with Chinese as a Foreign Language education in England in order to highlight how classroom activities are embedded within multiple settings including ethnic or other social group cultures family and community resources and school visions or goals The book illustrates how in Taiwan different ethnic groups recognise access and value English language learning to varying extents Its findings illuminate why some ethnic groups are highly motivated to learn English and are able to gain privileged economic positions in the job market In England access to Chinese is marked by social class and the book argues that this could augment an educational apartheid that already exists in language teaching in secondary schools thereby exacerbating existing inequality Innovative Teaching and Learning Methods in Educational Systems Endah Retnowati, Suprpto, Mohammad Jerusalem, Kristian Sugiyarto, Wagiran, 2019-11-11 This proceedings volume of InCoTEPD 2018 covers many ideas for handling a wide variety of challenging issues in the field of education The outstanding ideas dealing with these issues result in innovation of the system There are many innovation strategies resulting from recent research that are discussed in this book These strategies will become the best starting points to solve current and future problems This book provides an in depth coverage of educational innovation developments with an emphasis on educational systems formal or informal education strategies learning models and professional teachers Indeed those developments are very important to be explored for obtaining the right way of problem solving Providing many ideas from the theoretical foundation into the practice this book is versatile and well organized for an appropriate audience in the field of education It is an extremely useful reference for students teachers professors practitioners and government representatives in many countries **Handbook of College Science Teaching** Joel J. Challenges Facing Suburban Schools Shelley B. Wepner, Diane W. Gomez, 2017-05-01 This coedited book describes the

impact that an increasingly diverse student population has on 21st century suburban schools. It also presents what can and should be done to help K-12 school district administrators and teachers address this growing phenomenon across the nation. This eight chapter book provides a demographic, political, economic, and sociological overview of the changing nature of suburban schools, describes the nature of student diversity in the changing suburbs, and issues with student achievement. It identifies administrative responsibilities and program structures for working with a changing student population, proposes ways to reduce the achievement gap, most notably in literacy, looks at how to use whole child assessment protocols to provide support for such students, delves into parent inequities within changing suburban districts, and offers ideas for closing the parent gap. This book is written for school district administrators, teachers, legislators, policy makers, teacher educators, and educational researchers for developing programs and pathways for a segment of the student and parent population that now is living in suburban areas without traditional roots as advantaged suburbanites. **Rising Above the Gathering Storm**

Institute of Medicine, National Academy of Engineering, National Academy of Sciences, Committee on Science, Engineering, and Public Policy, Committee on Prospering in the Global Economy of the 21st Century: An Agenda for American Science and Technology, 2007-04-08. In a world where advanced knowledge is widespread and low cost labor is readily available, U.S. advantages in the marketplace and in science and technology have begun to erode. A comprehensive and coordinated federal effort is urgently needed to bolster U.S. competitiveness and pre-eminence in these areas. This congressionally requested report by a pre-eminent committee makes four recommendations along with 20 implementation actions that federal policy makers should take to create high quality jobs and focus new science and technology efforts on meeting the nation's needs, especially in the area of clean, affordable energy: 1. Increase America's talent pool by vastly improving K-12 mathematics and science education; 2. Sustain and strengthen the nation's commitment to long-term basic research; 3. Develop, recruit, and retain top students, scientists, and engineers from both the U.S. and abroad; and 4. Ensure that the United States is the premier place in the world for innovation. Some actions will involve changing existing laws, while others will require financial support that would come from reallocating existing budgets or increasing them. **Rising Above the Gathering Storm** will be of great interest to federal and state government agencies, educators, and schools, public decision makers, research sponsors, regulatory analysts, and scholars.
