The Language Centre was founded in 1970 as a language research department in the University of Ghana under the then Faculty of Arts Its mandate was to focus on research and teaching related to the improvement of performance in English the official language and the various Ghanaian languages as vectors of education culture and community interaction Since the 1970s the Centre has been focusing on research related to language learning teaching and assessment language endangerment and documentation multilingualism intercultural communication and the interconnected areas of language and literature This book in essence reflects these research areas but more than that the constitutive research articles were produced jointly or severally by different generations of directors and research fellows of the Centre over the four decades of the organization s existence The ten chapters of this commemorative anthology comprise selected research articles from a very large pool of previously published works with continuing relevance as well as more recent works that have not yet been published The book is not designed for release as a discrete and independent publication On the contrary it feeds into a much wider set of commemorative collections from diverse units all of which are thematically linked in a manner designed to project the mission of the University of Ghana

### **Education Quality and Social Justice in the Global South** Leon

Tikly,Angeline M. Barrett,2013-06-07 How we understand education quality is inextricably linked with perspectives on social justice Questions of inclusion relevance and democracy in education are increasingly contested most especially in the global South and improving the quality of education particularly for the most disadvantaged has become a topic of fundamental concern for education policy makers practitioners and the international development community The reality experienced by many learners continues to be of inadequately prepared and poorly motivated teachers struggling to deliver a rapidly changing curriculum without sufficient support and often using outmoded teaching methods in over crowded or dilapidated classrooms Education Quality and Social Justice in the South includes contributions from leading scholars in the field of education and development The text draws upon state of the art evidence from the five year EdQual research programme which focuses upon raising achievement in low income countries and demonstrates how systems of high quality universal education can be sustained By exploring recent research initiatives to improve education quality the importance of supporting local policy makers educators and parents as agents of change and students as active inquirers is highlighted and the challenge of taking successful initiatives to scale is explained The book is divided into three main parts Framing Education Quality Planning and Policies for Quality Implementing Quality in Schools Education Quality and Social Justice in the South argues that implementing a high quality of education using theories of social justice can inform the understanding of inclusion relevance and democracy in education The book should be essential reading for both students and researchers within the fields of international and comparative education along with educational policy poverty and development studies
