Fleeing deadly radiation, plague, and desperate men, Nathan, an army officer, leads his wife and their two teenage sons away from chaos and madness toward his ancestral home in Kentucky. Horrors lie in their path. From the prison struggling to maintain control of its inmates to the desperadoes who enslave anyone who comes their way, even survival may cost Nathan his humanity or that of his sons. Joshua and David. Nathan struggles to keep his family intact, but it requires making brutal choices. He wants to protect his sons but knows they now must be deadly and cold at times. Nathan's home has been spared from the worst of the destruction, but a larger conflict over scarce resources erupts. For the survivors to have any chance, they will have to fight, and the desperate journey has transformed young Joshua and David into men called upon to lead and sacrifice. Torn between harsh realities and wanting to hold onto fleeting childhoods, they are often conflicted and angry about the roles thrust upon them. Much will depend on how Nathan and his sons respond to a madman and his military regime seeking to conquer the fledgling community they are helping to build. Female Rebellion in Young Adult Dystopian Fiction Sara K. Day, Miranda A. Green-Barteet, Amy L. Montz,2016-04-15 Responding to the increasingly powerful presence of dystopian literature for young adults, this volume focuses on novels featuring a female protagonist who contends with societal and governmental threats at the same time that she is navigating the treacherous waters of young adulthood. The contributors relate the liminal nature of the female protagonist to liminality as a unifying feature of dystopian literature for and about young women and cultural expectations of adolescent womanhood. Divided into three sections, the collection investigates cultural assumptions and expectations of adolescent women, considers the various means of resistance and rebellion made available to and explored by female protagonists, and examines how the adolescent female protagonist is situated with respect to the groups and environments that surround her. In a series of thought-provoking essays on a wide range of writers that includes Libby Bray, Scott Westerfeld, Tahereh Mafi, Veronica Roth, Marissa Meyer, Ally Condie, and Suzanne Collins, the collection makes a convincing case for how this rebellious figure interrogates the competing constructions of adolescent womanhood in late twentieth and early twenty-first century culture

Dunnigan,1996 Beyond being digital James Dunnigan the state department s and CIA s expert advisor on military affairs reveals the truth behind high tech mania First rate the informality and the point of view are reminiscent of the reflective talk of soldiers Scientific American Casting Shadows Michael J. Smith Sr.,2010-08-05 This is a fictional work that encompasses modern counterterrorism with current terrorist tactics that have been thwarted or investigated by respected counterterrorism agencies These scenarios are linked together with the formation of a special privately owned terrorism task force that is designed to counter the weakening of the United States government and growth of a more sinister radical Islamic faction These all take place in real locations with a cast of characters building as the book progresses The title Casting Shadows has multiple meanings first of which is the casting or formation of both groups second it refers to the methods used by these organizations to move forward and lastly it refers to the shadows and images of people burned on buildings after several nuclear explosions Casting Shadows is a suspense thriller with law enforcement and military leanings twisting back and forth between sides This story line gets a little more complicated when more sides appear Its not just a good guy meets bad guy book but has many dimensions of good and evil and the perception of either may be different depending on the angle youre witnessing Who are the real bad guys The time line carries the reader through the development of the most sinister plot in the history of mankind Complex and very involved the plot destroys believers and nonbelievers alike The sacrifice of their own people provides a screen that ultimately weakens their objective Islamic radical factions from around the world bond together to create the ultimate union this union called Al Infitar is attempting to finish the jihad their forefathers have started With just a small force with perfect resolve funds and opportunity they attempt to complete their jihad Total Islam is their goal and total destruction is their tool Acquiring nukes for the black market the brothers embark on a slow methodical plan to destroy the Western world as we know it Is this book really fiction Your call The techniques are real The targets are real the motivation is real and the desire is real Even more frightening than that the plots are real and are being attempted as you read this Islamic radicals have stepped up attempts to destroy our way of life The inner jihad they seek or the total acceptance of Allah by Muslims have now become an outward call for war against Western civilization and all non Muslims Jihad is being called in mosques throughout the world and groups are forming for the final push The Koran calls all Muslims to jihad which by definition is the inner struggle of an individual to fight evil the sort of yin and yang of Muslims The radical leaders interpret this differently and call for the death of any nonbeliever Who are they speaking of Who are the nonbelievers As you read this book pay particular attention to the dates because in the beginning the planning stages cover several years and locations This is typical of radical plots and the formation of cells by their recruiters takes time and large sums of money What allows the fertile ground to produce such

plots to blossom is the weakened state of the United States and European governments This weakness will always be exploited as the enemy will be constantly vigilant for such cracks in the armor Enjoy this book the way it was intended not to terrify but to enlighten and make these attempts public Yes they can happen Yes they are trying And yes we can stop them So is this really a fictional book or a book that hedges on insanity Is this book a recipe for disaster or too far fetched to believe Read it and make your own decision This book like real life will continue The plots will always be there and the desire will continue The will to survive is stronger than humans can comprehend For a nation to survive it sometimes takes continuous vigilance and strength When one or the other is lacking then evil creeps in to steal what it can After 9 11 **Garden**

Suburbs of Tomorrow? Martin Crookston,2013-12-04 Named one of the Top 10 books about council housing the Guardian online Faced with acute housing shortages the idea of new garden cities and suburbs is on the UK planning agenda once again but what of the garden suburbs that already exist Over the first six decades of the twentieth century councils across Britain created a new and optimistic form of housing the cottage estates of corporation suburbia By the early 1960s these estates provided homes with gardens for some 3 million mainly working class households It was a mammoth achievement But because of what then happened to council housing over the later years of the century this is not very often appreciated In Garden Suburbs of Tomorrow Martin Crookston suggests that making the most of the assets which this housing offers is a positive story it can be positive for housing policy for councils and their place making endeavours and for the residents of the estates This is especially important when all housing market and development options are so constrained and likely to remain so for the next decade or more Following an examination of what the estates of corporation suburbia are and what they are like there follow chapters on specific examples from different parts of the country on how they are affected by the workings of the housing market and then not unconnectedly on how attitudes to this socially built stock have evolved Then the final chapters try to draw out the potentials and to suggest what future we might look for in corporation suburbia in the twenty first century **A Battle Plan for Supporting Military Families** Linda Hughes-Kirchubel,Shelley MacDermid
