Makonye, Nokulunga S. Ndlovu, 2023-03-01 This book's research is on online pedagogical approaches devised by teacher educators and researchers to circumvent a face to face curriculum delivery during the COVID 19 pandemic The challenge faced by educators was that they were uncertain of how to use digital technologies in teaching learning and assessment productively This book reports on case studies on teaching student teachers with technology in a way that advanced not only communication but also the cognitive growth of students in relation to disciplinary knowledge The scholars from South African universities used both conceptual and empirical methodologies mostly in qualitative set ups The scholarly contributions in this book are varied They cover theoretical nuances for ICT use in education considerations for the use of computers in the classroom pedagogical thinking and pedagogical integration of ICTs in education affordances of iPads in visible teaching and learning supporting student cognition in Languages Mathematics Science Engineering Graphics and Design with ICTs The use of software applications such as GeoGebra and Excel in teaching and learning mathematics is researched among others The rich discussions that emerged from their research enable academics to learn from others innovative moments that came as a result of pandemic pressure The recommendations in this book can be used in blended learning beyond the COVID 19 era as curriculum delivery methods are bound to change The value of this book is that it reports on pedagogical innovations in using digital technologies in teacher education Researchers have an opportunity to learn from this book how to deal with the tantalising teaching and learning problem of our time How can the use of digital technology transform teaching and learning in general and teacher education in particular *Polymer Nanocomposites for Advanced Engineering and Military Applications* Ramdani, Nouredine, 2019-04-01 The field of polymer nanocomposites has become essential for engineering and military industries over the last few decades as it applies to computing sensors biomedical microelectronics hard coating and many other domains Due to their outstanding mechanical and thermal features polymer nanocomposite materials have recently been developed and now have a wide range of applications Polymer Nanocomposites for Advanced Engineering and Military Applications provides emerging research on recent advances in the fabrication methods properties and applications of various nano fillers including surface modification methods and chemical

functionalization Featuring coverage on a broad range of topics such as barrier properties biomedical microelectronics and matrix processing this book is ideally designed for engineers industrialists chemists government officials military professionals practitioners academicians researchers and students **Towards Sustainable Food Production in Africa** Morris Fanadzo, Nothando Dunjana, Hupenyu Allan Mupambwa, Ernest Dube, 2023-07-10 This edited book is focused on Sustainable Development Goal 2 It offers a comprehensive and topical collection of practices technologies and innovations in the field of sustainable food production and security under a changing climate It is a one stop handbook for farmers researchers extensionists policy makers and other stakeholders seeking to identify and disseminate best fit technologies for local and regional landscapes It offers an understanding of the challenges risks and uncertainties as well as opportunities to foster productive and sustainable food production Smallholder farming and agriculture in general is facing a serious threat from climate change that has resulted in erratic and unpredictable rainfall and increased temperatures among other abiotic stresses These climate change induced pressures have reduced productivity mainly among the smallholder farmers who are critical in driving the attainment of sustainable development goals like SDG 2 12 and 13 The objective of the book is to document effective and practicable practices and technologies that can be adopted by smallholder African farmers as mitigation measures against the effects of climate change This book is of interest to researchers agricultural scientists climate change scientists capacity builders and policymakers **Metal Alloys for Hydrogen Storage Applications** API Popoola, Sadiq Abiola Raji, 2025-10-01 Metal Alloys for Hydrogen Storage Applications Solid State Hydrogen Storage in Metal Based Materials provides an overview of the fundamentals mechanics processing and application of various metal alloys intermetallics metal matrix composites metal oxides and other lightweight metal materials for use in hydrogen storage Titanium based magnesium based binary type and high entropy alloys are each covered as are hydrogen bonding systems the effects of alloy microstructure on hydrogen storage capacity and efficiency alloy modifiers and coatings and additives for alloys Modeling techniques and approaches to additive manufacturing of components for hydrogen energy storages are also outlined and various applications are included throughout Covers the fundamentals properties mechanics and applications of alloys and other metallic materials for use as energy storage materials Discusses recent advances in the processing of metal hydrides oxides and other derivatives tailored for solid state hydrogen energy storage applications Investigates hydrides of Ti based alloys Mg based alloys high entropy alloys and metal matrix composites and their energy storage applications in fuel cells supercapacitors batteries solar cells and more **Nanofillers for Binary Polymer Blends** Sabu Thomas, Soney C. George, Sharika T. Nair, 2024-06-28 Nanofillers for Binary Polymer Blends covers major advances in the field of polymer blend nanocomposites The book encompasses the fundamentals of polymer blends various nanofillers experimental techniques used in their fabrication the characterization of various polymer blend nanocomposites and theoretical evaluations of various properties The properties and potential applications that have been achieved in various polymer blends by the addition of

nanofillers are also highlighted Applications for commercial products including automotive parts packaging construction materials biotechnology medical devices building materials computer housings car interiors etc are also covered in detail This is an important reference source for materials scientists and engineers looking to increase their understanding of how nanofillers are being used in polymer blends Outlines the various types of nanofillers explaining how the properties of each enhances the morphology rheology mechanical dynamic mechanical viscoelastic electrical and thermal properties of polymer blends Provides information on the theory modeling and simulation of nano filled polymer blends Assesses the mechanism of selective localization of nanofillers in polymer blends the effect of localization of nanofillers on the microstructure and the relative performance of polymer blends

Advanced Two-Dimensional Nanomaterials for Environmental and Sensing Applications Peter R. Makgwane,Naveen Kumar,David E. Motaung,2024-12-24 Advanced Two Dimensional Nanomaterials for Environmental and Sensing Applications provides state of the art progress developments in the design strategies of 2D based nanomaterials It covers specific focused applications in respective environmental challenges posed by pollutants such as chemical gases bacterial and microbial textile dyes pharmaceutical antibiotics agricultural pesticides and toxic heavy metals in water and air contaminations It elaborates the applications of 2D nanomaterials in the context of technologies such as sensing and detection to monitor pollutants as well as photocatalysis and adsorption for the removal of pollutants Features Elaborates the applications of 2D nanomaterials in the context of sensing and detection to monitor pollutants as well as photocatalysis and adsorption for the removal of pollutants Focuses on environmental pollutants detection removal or remediation and monitoring device fabrications Discusses materials of specific dimension 2D Covers both water and air remediation Includes photocatalytic degradations and antimicrobial disinfection This book is aimed at graduate students and researchers in chemical and civil engineering materials science and nanomaterials

The Role of the State Mario Scerri,Helena M. M. Lastres,2020-11-29 This series of books brings together results of an intensive research programme on aspects of the national systems of innovation in the five BRICS countries Brazil Russia India China and South Africa It provides a comprehensive and comparative examination of the challenges and opportunities faced by these dynamic and emerging economies In discussing the impact of innovation with respect to economic geopolitical socio cultural institutional and technological systems it reveals the possibilities of new development paradigms for equitable and sustainable growth This volume first in the series analyses the relationship between the state and the evolution of the national systems of innovation Putting forward several valuable considerations and policy recommendations it argues that the experiences and knowledge gathered here may deeply impact the way we conceive of the theory of innovation systems and implement policies and strategies for their development Original and detailed data together with expert analyses by contributing authors on wide ranging issues will make this an invaluable resource for researchers and scholars in economics development studies and political science as well as for policy makers and development practitioners interested in the BRICS

countries Two-Dimensional Materials for Environmental Applications Neeraj Kumar,Rashi Gusain,Suprakas Sinha Ray,2023-04-28 This book focuses on recent developments in the field of two dimensional nanomaterials for environmental applications Due to their high surface area and tunable surface chemistry two dimensional nanomaterials are currently garnering great interest for environmental remediation applications This book compiles contributed chapters from active international researchers dealing with the development of state of the art two dimensional nanomaterials in environmental applications such as water and wastewater treatment adsorption photocatalysis membrane separation desalination deionization environmental pollutants sensing detection carbon dioxide capture and catalytic conversion microbial treatment and electrochemical remediation Each chapter provides an essential and comprehensive overview of the recent advances in material development and application giving special attention to preparation methods tuning of physiochemical properties surface and interface chemistry structural porosity assemblies integration for fabrication of devices and their relationship with overall efficiency It offers a valuable reference guide for environmental and materials scientists engineers and policymakers working towards environmental sustainability Antibiotic Materials in Healthcare Kokkarachedu Varaprasad,Vimala Kanikireddy,Rotimi Sadiku,2020-05-22 Antibiotic Materials in Healthcare provides significant information on antibiotic related issues accurate solutions and recent investigative information for health related applications In addition the book addresses the design and development of antibiotics with advanced physical chemical and biological properties an analysis of materials in vivo and in vitro applications and their biomedical applications for healthcare Provides information on all aspects of antibiotic related issues Offers a balanced synthesis of basic and clinical science for each individual case presenting clinical courses and detailed microbiological information for each infection Describes the prevalence and incidence of global issues and current therapeutic approaches *Polymer Based Bio-nanocomposites* Chandrasekar Muthukumar,Senthil Muthu Kumar Thiagamani,Senthilkumar Krishnasamy,Rajini Nagarajan,Suchart Siengchin,2022-03-28 This book gives a comprehensive overview of bionanocomposites a class of materials that consist of a biopolymer matrix which is embedded with nanoparticles and natural fibres as reinforcement to produce novel material and achieve superior physico chemical and mechanical properties The book looks into the synthesis of various forms of nanoparticles the fabrication methods and the characterization of bionanocomposites It also includes topics related to the sustainability and life prediction of bionanocomposites such as biodegradability recycling and re use An important aspect in the designing of bionanocomposites includes computational modeling and the suitability of the bionanocomposites in various applications is presented This book appeals to students researchers and scientists looking to gain fundamental knowledge know about recent advancements in the research on bionanocomposites and their applications **Oral Cancer: New Insights for the Healthcare Professional: 2012 Edition** ,2012-12-10 Oral Cancer New Insights for the Healthcare Professional 2012 Edition is a ScholarlyBrief that delivers timely authoritative comprehensive and specialized information about Oral Cancer in

a concise format The editors have built Oral Cancer New Insights for the Healthcare Professional 2012 Edition on the vast information databases of ScholarlyNews You can expect the information about Oral Cancer in this eBook to be deeper than what you can access anywhere else as well as consistently reliable authoritative informed and relevant The content of Oral Cancer New Insights for the Healthcare Professional 2012 Edition has been produced by the world s leading scientists engineers analysts research institutions and companies All of the content is from peer reviewed sources and all of it is written assembled and edited by the editors at ScholarlyEditions and available exclusively from us You now have a source you can cite with authority confidence and credibility More information is available at <http://www.ScholarlyEditions.com>

Circular Economy Maulin P. Shah,Suvendu Manna,Papita Das,2024-08-23 The reclamation of wastewater and other essential materials is among the major research areas for understanding the effects of implementing a circular economic model The re use and re cycling of wastewater can greatly reduce the overall demand for freshwater for various industrial applications Such concepts could potentially greatly reduce the overall water demands of our planet if implemented successfully Circular Economy Applications for Water Remediation will examine the current understanding of the circular economy in water remediation processes its drawbacks and relatively unexplored areas that require further research This book Provides an overview of the processes available to extract value added materials from wastewater such as clean water nutrients and energy Explores the possibilities of re using wastewater for agricultural uses Provides an overview of the current policies and regulations concerning the implementation of circular economy concepts in wastewater remediation

On Route in South Africa BPJ Erasmus,2014-06-06 From Pofadder eMkhuze and Haenertsburg to Cookhouse Klipplaat Maokeng and Taung South Africa s amazing diversity is an invitation to take to the road This revised and updated edition of On Route in South Africa has a new contemporary look but contains all the features that have made it such a classic Previous editions won a special place in the hearts of those both living in and visiting South Africa No other book available offers such a range and depth of information about the villages towns and cities of this land and on the intriguing and informative tales they have to tell The 37 chapters are arranged in logical sequence beginning with Cape Town and radiating outwards Each chapter corresponds to an established and coherent geographic or demographic area Included are detailed regional maps incorporating up to date place names and complemented by route directions within the text With its expanded text and more than 500 photographs On Route in South Africa contains a remarkable wealth of information making it the perfect travel planner and companion

The Future of Entrepreneurship in Africa Anthony Abiodun Eniola,Chux Gervase Iwu,Abdullah Promise Opute,2022-12-30 For many years entrepreneurship has been considered as one of the most important solutions to the three pronged challenges poverty unemployment and inequality of most African countries A recent development that has undoubtedly compounded the challenges that African entrepreneurs face and further impede the economic growth impact is Covid 19 This pandemic has exerted severe damage to economies and businesses globally For the

African setting the implications of Covid 19 on businesses and individuals would be enormous as African societies are rarely equipped to absorb unexpected shocks of this magnitude as the social and welfare schemes are far below requirements This book illuminates entrepreneurship in the African setting focusing on the prospects challenges and the post Covid 19 pandemic future It aims to offer a rich repository of information on strategies and techniques for sustaining entrepreneurial activities that can enrich African nations and will be of relevance to academics researchers advanced students entrepreneurs governments and government agencies who are interested in understanding issues relating to entrepreneurship development within the African continent Modified Nanomaterials for Environmental Applications Onoyivwe Monday Ama, Suprakas

Sinha Ray, Peter Ogbemudia Osifo, 2021-11-16 This book focuses on the electrochemical and nanostructural properties of new photoanode electrolyte combinations used in the development of novel surface modified nanomaterials for environmental applications As water treatment is rapidly becoming a global challenge due to the increasing complexity and number of the various pollutants present the book explores fundamental issues relating to environmental applications of nanomaterials It addresses relevant topics ranging from electrochemical synthesis and characterization to applications of photoanodes in corrosion prevention and biosensors for wastewater treatment Featuring up to date experimental results on nanomaterials for detection of pharmaceuticals and heavy metals in wastewater this contributed volume is useful to electrochemical researchers materials scientists and chemical and civil engineers interested in advanced photoelectrochemical research for environmental applications Polyolefin Fibres S C O Ugbohue, 2017-06-09 Polyolefin Fibres Structure Properties and

Industrial Applications Second Edition explores one of the most widely used commercial polymers with a focus on the most important polyolefins namely polyethylene polypropylene and polyolefin bicomponent fibres These versatile fibres are durable chemically resistant lightweight economical and functional This new edition has been updated and expanded to include cutting edge research on a broad range of advanced applications Part I covers the structure and properties of polyolefin fibres incorporating a new chapter on the environmental aspects of polyolefin use Part II examines the methods for improving the functionality of polyolefins providing essential information for those engaged in developing high performance materials A final group of chapters addresses how polyolefin fibres can be incorporated into specific textile applications such as automotive geotextile biomedical and hygiene products and explores potential future development This book is an essential reference for textile technologists and manufacturers polymer and fibre scientists yarn and fabric manufacturers biomedical and device engineers and industrialists and researchers Introduces the types properties and structure of polyolefin fibers for readers new to the polyolefins field Examines methods to improve the functionality of polyolefin fibers providing essential information for textile technologists and research and development managers engaged in developing high performance materials Presents existing and potential applications of polyolefin fibers exploring how they can expand the range of commercial polyolefin based products Innovation for inclusive development and transformation in South Africa

Charles Hongoro, Cyril Adonis, Konosoang Sobane, 2023-03-01 Science technology and innovation STI are generally accepted as major drivers of growth and can help address poverty and directly improve the well being of different groups in society However under certain circumstances STI can reinforce social exclusion and inequalities This book explores discourses around directionality and the importance of Innovation for Inclusive Development IID in addressing policy questions that explore the relationship between IID with inequalities in income and opportunities It seeks to unpack the concept of IID and what it means in a country such as South Africa a country characterised by endemic poverty deepening inequality and high levels of unemployment The book is largely original and based on a critique of existing literature to expose specific issues or bolster specific arguments about the role of IID in equitable and inclusive development This book has been written by various scholars who understand the various notions of IID and how it can possibly be applied and the relevance of such knowledge for policy programmes and practice
