Annual Report ... South Africa. Department of Higher Education and Training, 2016 **New Models for Technical and Vocational Education and Training** Makgato, Moses, Afeti, George, 2020-12-18 Technical and vocational education and training at technical schools are major contributing factors in combating poverty unemployment and inequality The primary purpose of technical and vocational education and training is to prepare students and learners for the world of work and for a smooth transition from education institutions into the workplace As the Fourth Industrial Revolution continues to create more radical changes in the labor market experts are calling for a reform of education including vocational education and training and adult and professional education New Models for Technical and Vocational Education and Training is an essential scholarly research book that examines TVET and CET colleges and programs that provide intermediate skills to enhance students chances of employability and entrepreneurship in Industry 4.0 The book explores knowledge in respect to workforce preparation digital skills development teaching and learning of TVET flexibility and articulation of TVET to respond to work integrated learning and reskilling and upskilling to avoid skill mismatches It is ideal for TVET schools academicians curriculum designers managers training officers administrators vocational professionals researchers and students *Indigenous knowledge systems and climate change management in Africa* Ajayi, O.C. (ed), Mafongoya, P.L. (ed), 2017-11-15 Climate change presents a profound challenge to food security and sustainable development in Africa Its negative impacts are likely to be greatest in the African region which is already food insecure In the face of global climate change and its emerging challenges and unknowns it is essential that decision makers base policies on the best available knowledge In recent years the knowledge of local and indigenous people often referred to as indigenous knowledge IK has been increasingly recognised as an important source of climate knowledge and adaptation strategies **Autism** Mary Clasquin-Johnson, Dikeledi Mahlo, Michel Clasquin-Johnson, 2023-02-10 This book is written at a time of a paradigm shift in the African continent where dependence on western epistemologies and ontologies are giving way to African indigenous knowledge systems Africa has been an importer of knowledge from the west since time immemorial and this book contributes to the body of knowledge on autism spectrum disorder ASD from the African perspective As a result decoloniality and Inclusive Education have gained traction within the academic discourse with University of South Africa UNISA hosting decoloniality annual conference and a summer school to stimulate academic discussions and debates with a focus on African indigenous knowledge systems and theoretical lenses as opposed to the western epistemologies The book also demystifies some of the misconceptions that children with ASD are a curse and punishment from God or gods Among others Ubuntu seems to be the dominant theoretical framework underpinning some of the research studies reported in this book

Deanship in the Global South Oliver J.J. Seale, 2021-02-08 The university today is a postmodern neo liberal competitive boundary less knowledge conglomerate a far cry from its historical traditional classical and collegial roots There is a body of

literature on deanship that points to its evolving nature in the contemporary academe characterised by complexity and change Balancing academic demands simultaneously with the requirements for effective performance leadership and management lies at the heart of this very challenging bridging role nowadays Deans are generally former academics emerging from a traditional collegial space and often catapulted into the relatively unknown domain of executive management with its related problems Deans nowadays are required to be more than collegial intellectual leaders They are also meant to be fiscal and human resource experts fundraisers politicians and diplomats Deanship in the Global South Bridging Troubled Waters is about the deans lived reality as they try to balance the demands of both the academe from which they emerge and the administration to whom they now need to account Their lack of preparation and inadequate support points to the need for a more strategic integrated approach to leadership development within their critical bridging roles between the academe and administration

Application of Nanotechnology in Mining Processes Elvis

Fosso-Kankeu, Martin Mkandawire, Bhekien B. Mamba, 2022-03-02 b Application of Nanotechnology in Mining Processes Nanotechnology has revolutionized processes in many industries but its application in the mining industry has not been widely discussed This unique book provides an overview of the successful implementation of nanotechnology in some of the key environmental and beneficiation mining processes This book explores extensively the potential of nanotechnology to revolutionize the mining industry which has been relying for a very long on processes with limited efficiencies The nine specialized chapters focus on applying nanoflotation to improve mineral processing effective extraction of metals from leachates or pregnant solutions using nanoscale supramolecular hosts and development of nano adsorbents or nano based strategies for the remediation or valorization of AMD The application of nanotechnology in mining has so far received little attention from the industry and researchers and this groundbreaking book features critical issues so far under reported in the literature Application of nanotechnology in mineral processing for the enhancement of froth flotation Development of smart nanomaterials and application for the treatment of acid mine drainage Recovery of values from pregnant solutions using nano adsorbents Valorization of AMD through formation of multipurpose nanoproducts Audience Industrial interest will be from mining plant operators environmental managers water treatment plants managers and operators Researchers in nanotechnology environmental science mining and metallurgy engineering will find the book valuable as will government entities such as regulatory bodies officers and environmentalists
