Coalition Government Penal Policy 2010-2015 David Skinns, 2016-07-12 This book shows how the overall impact of the penal policy agenda of the Coalition Government 2010 2015 has not led to the intended rehabilitation revolution but austerity outsourcing and punishment designated here as punitive managerialism. The policy of austerity has led to significant budget cuts in legal aid and court services which threaten justice. It has also led to staffing reductions and overcrowding in the prison system which threaten order and have undermined more positive work with prisoners. The outsourcing of prison and community based offender services is based on untried method with uncertain results. The shift in orientation towards punishment is regrettable because it is essentially negative. The book notes that this move to punitive managerialism is located in the broader trend towards neo liberalism. It concludes by attempting to articulate the parameters of an affordable and emotionally satisfying yet humane and rational penal policy. *Living with Floods in a Mobile Southeast Asia* Carl

Middleton, Rebecca Elmhirst, Supang Chantavanich, 2017-11-02 This book contributes to a better understanding of the relationship between migration vulnerability resilience and social justice associated with flooding across diverse environmental social and policy contexts in Southeast Asia. It challenges simple analyses of flooding as a singular driver of migration and instead considers the ways in which floods figure in migration based livelihoods and amongst already mobile populations. The book develops a conceptual framework based on a mobile political ecology in which particular attention is paid to the multidimensionality temporalities and geographies of vulnerability. Rather than simply emphasising the capacities or lack thereof of individuals and households the focus is on identifying factors that instigate manage and perpetuate vulnerable populations and places these include the sociopolitical dynamics of floods flood hazards and risky environments migration and migrant based livelihoods and the policy environments through which all of these take shape. The book is organised around a series of eight empirical urban and rural case studies from countries in Southeast Asia where lives are marked by mobility and by floods associated with the region's monsoonal climate. The concluding chapter synthesises the insights of the case studies and suggests future policy directions. Together the chapters highlight critical policy questions around the governance of migration institutionalised disaster response strategies and broader development agendas.
