Methods and Tools for Completing Doctor of Business Administration (DBA)

Theses Jacques Digout, Charbel Salloum, Sylvain Senechal, 2019-06-17 This book offers complete and operational

methodology guidelines for the entire process of the Doctor of Business Administration DBA thesis. It provides insights into theory and practice both indispensable for the successful completion of the research project. The volume draws on the contributions of major reference works and offers simplified, clear and applicable standards for DBA participants and supervisors. It illustrates a living experience because completing a thesis is a human adventure. Non-classic students starting a doctoral project are facing an utterly new world with codes and methods they do not recognise. As such, this book brings together many testimonies from DBA scholars which will help readers to find new formulations and valuable solutions in their own work.

The Black Student's Pathway to Graduate Study and Beyond Evelyn Shepherd W. Farmer, 2023-01-01

The Black Student's Pathway to Graduate Study and Beyond: The Making of a Scholar is an informative and ambitious book designed to help Black prospective and current graduate students pursue graduate degrees successfully. The book covers broad topics ranging from admissions policies, standardized tests, networking, mentorship, financial options, qualifying and comprehensive exams, proposal and dissertation writing, publishing, gender and race socialization, and campus culture. This volume is organized into five graduate pathways: Pathway I: Embarking on the Graduate Admissions Process; Pathway II: Confronting Race and Gender Disparities in Graduate Education; Pathway III: Persevering to the Graduate Degree; Pathway IV: Adjusting to the Socialization of Graduate Education; and Pathway V: Preparing for Success Beyond Graduate Education. The book calls Black students' attention to some of the barriers they may encounter along the pathway to a graduate degree. The pathway to success can be linear or nonlinear since students travel different journeys and are at different vectors on the continuum. The primary audience for this book consists of Black prospective and current graduate students, graduate deans, admissions counselors, recruiters, and faculty advisors in both Black and white higher education institutions. The secondary audience includes high school students, guidance counselors, and social and religious organizations. Furthermore, this book can serve as a handy resource for undergraduates who are interested in pursuing a graduate degree.

ENDORSEMENTS

This book will be helpful not only for students seeking a meaningful experience in graduate and professional school but perhaps more importantly, institutions that desire to create productive pathways for Black students to the advanced degree workplace. The chapters unpack important lived experiences that should be carefully considered.

Jerlando F. L. Jackson, University of Wisconsin-Madison

The Black Student's Pathway to Graduate Study and Beyond: The Making of a Scholar makes key contributions to the extant literature. By underscoring Black graduate students' engagements with Academe, the scholars provide nuanced perspective through an array of contextual lenses, e.g., admissions, race and gender socialization, transition that are endemic to higher education in general and the Historically Black College and University (HBCU) setting in particular. Critical Race Theory is the theoretical framework that provides scaffolding upon which the volume's scholars theorize best practices, strategies, and solutions that are authentic representations of their experiences. The pathway is an appropriate metaphor for this book; the scholars have provided illumination; it is incumbent upon us to initiate the journey.
