

Q	Marking instructions	AO	Marks	Typical solution
6	Forms an expression for the gradient of the chord for the function $f(x) = 3x^4$	AO2.1	B1	Gradient of the chord = $\frac{3(x+h)^4 - 3x^4}{h}$
	Expands $(x+h)^4$ with first two terms clearly correct	AO1.1b	M1	$(x+h)^4 = x^4 + 4x^3h + (6x^2h^2 + 4xh^3 + h^4)$ Gradient of chord equals $\frac{12x^3h + (18x^2h^2 + 12xh^3 + 3h^4)}{h}$
	Obtains a correct simplified expression for the gradient of the chord	AO1.1b	A1	$= 12x^2 + 18x^2h + 12xh^2 + 3h^3$
	Uses correct notation for $h \rightarrow 0$ or equivalent language	AO2.5	B1	As $h \rightarrow 0$ the gradient of the chord approaches the gradient of the tangent at that point = $12x^2$ $f'(x) = 12x^3$
	Completes the rigorous proof by explaining that as $h \rightarrow 0$ the gradient of the chord approaches the gradient of the tangent at that point	AO2.4	R1

Countdown to Socialism Anthea Jeffery, 2023-07-19 With growth stalling joblessness

at crisis levels and governance unravelling most South Africans cannot fathom why the ANC does not embark on meaningful reform The answer lies in what is seldom raised the ruling party's unwavering determination to take the country by incremental steps from capitalism to socialism This transformation is being implemented via a Moscow inspired national democratic revolution NDR dating back many decades Despite the Soviet Union's collapse in 1991 the ANC SACP alliance still sees the NDR as offering the most direct route to socialism in South Africa and hence as its bedrock strategy The NDR has been implemented in many different spheres since 1994 By way of example NDR interventions have already made millions of people unemployable and the mining sector largely uninvestable They now aim at land expropriation without compensation EWC and the effective nationalisation of private healthcare and pensions The NDR is the key to understanding ANC rule over some 30 years yet most South Africans have been kept in the dark on it This book aims to fill that gap Written in clear and simple language it provides an indispensable primer on the NDR and its role in the countdown to socialism in South Africa

Race Rights Reparations Fernne Brennan,2017-07-14 This book considers institutional racism as a problem that exists within modern societies Its roots lie with the transatlantic slave trade and slavery and the solution involves ridding society of the problem It is argued here that first there needs to be an acceptance of its existence then developing the tools needed to deal with it and finally to implement those tools so that institutional racism can be permanently removed from society The book has four themes the first considers the nature of institutional racism the second theme looks at instances of institutional racism through matters such as deaths in custody and skin lightening the third considers the concept of reparations and the final area looks at the development of social movements as a way of pushing institutional racism up the political agenda The development of a social movement is part of a social discourse which would for example push mentoring as a form of reparations There is a need for more research on the manifestations of institutional racism and this book is part of that discourse It is argued that the legacy of the slave trade and slavery is continuing and contemporary through the presence of institutional racism in society This problem has not been addressed through legislation and policies devised to combat racial discrimination Institutional racism needs to be understood as being located in the processes and procedures of societal institutions
