Winged Words From God:

Winged Words from God Madeline Beber, 2014-10-29 , Modernity in the Light of the Word of God - Vol.2 Metr. Averky (Taushev), Wealth without work Pleasure without conscience Science without humanity Knowledge without character Politics without principle Commerce without morality Worship without sacrifice <https://vidjambov.blogspot.com> 2023 01 book inventory vladimir djambov talmach.html Everything offered here is my church sermons speeches on the occasion of various solemn gatherings and articles written between 1951 the year I arrived in the United States and began my ministry to the Russian Church Abroad at the Holy Trinity Monastery in Jordanville in the rank of Archimandrite and then in the rank of Bishop since 1953 and Archbishop since 1961 The Reason why All Christians Should Read God's Written Word in Greek: and Demonstration Afforded of the Ease with which an Accurate Knowledge Thereof May be Gained, Etc CHRISTIANS., 1868 Good Words , 1860 **A New Commentary on Genesis** Franz Delitzsch, 1888 **The Theosophical Quarterly** , 1907 The Character of God Thomas E. Jenkins, 1997-12-04 Educated people have become bereft of sophisticated ways to develop their religious inclinations A major reason for this is that theology has become vague and dull In The Character of God author Thomas E Jenkins maintains that Protestant theology became boring by the late nineteenth century because the depictions of God as a character in theology became boring He shows how in the early nineteenth century American Protestant theologians downplayed biblical depictions of God's emotional complexity and refashioned his character according to their own notions stressing emotional singularity These notions came from many sources but the major influences were the neoclassical and sentimental literary styles of characterization dominant at the time The serene benevolence of neoclassicism and the tender sympathy of sentimentalism may have made God appealing in the mid 1800s but by the end of the century these styles had lost much of their cultural power and increasingly came to seem flat and vague Despite this both liberal and conservative theologians clung to these characterizations of God throughout the twentieth century Jenkins argues that a way out of this impasse can be found in romanticism the literary style of characterization that supplanted neoclassicism and sentimentalism and dominated American literary culture throughout the twentieth century Romanticism emphasized emotional complexity and resonated with biblical depictions of God A few maverick religious writers such as Harriet Beecher Stowe W G T Shedd and Horace Bushnell did devise emotionally complex characterizations of God and in some cases drew directly from romanticism But their strange and sometimes shocking depictions of God were largely forgotten in the twentieth century's use of theological as a pejorative term implying that an argument is needlessly Jenkins urges a reassessment of their work and a greater understanding of the relationship between theology and literature Recovering the lost literary power of American Protestantism he claims will make the character of God more compelling and help modern readers appreciate the peculiar power of the biblical characterization of God **A Concordance to the Poems of Edmund Spenser** Charles Grosvenor Osgood, 1915 **The Canadian Annual Review of Public Affairs** , 1916

Against the Uprooted Word Tristram Wolff, 2022-10-11 In this revisionist account of romantic era poetry and language philosophy Tristram Wolff recovers vibrant ways of thinking language and nature together Wolff argues that well known writers including Phillis Wheatley, Peter William Blake, William Wordsworth and Henry David Thoreau offer a radical chronopolitics in reaction to the uprooted word or the formal analytic used to classify languages in progressive time according to a primitivist timeline of history and a hierarchy of civilization. Before the bad naturalisms of nineteenth century race science could harden language into place as a metric of social difference, poets and thinkers try to soften, thicken, deepen and dissolve it. This naturalizing tendency makes language more difficult to uproot from its active formation in the lives of its speakers. And its gray romanticism simultaneously gives language different kinds of time, most strikingly the deep time of geologic form to forestall the hardening of time into progress. Reorienting romantic studies to consider colonialism's pervasive effects on theories of language origin, Wolff shows us the ambivalent position of romantics in this history. His reparative reading makes visible language's ability to reimagine social forms.

Personhood of God Dr. Yochanan Muffs, 2011-10-20 A fascinating exploration of the many faces of God and what they reveal about our own humanity. He was a whole pantheon in Himself. He constantly appeared in many and ever changing roles lest He be frozen and converted into the dumb idols. He Himself despised. God was a polyvalent personality who by mirroring to man. His many faces provided the models that man so needed to survive and flourish. This is the true humanity of God from the Introduction. In scholarly but accessible terms with many startling and controversial insights, renowned Bible scholar Dr. Yochanan Muffs examines the anthropomorphic evolution of the Divine Image from creator of the cosmos to God the father, God the husband, God the king, God the chess player, God the ultimate master, and how these different images of God have shaped our faith and world view. Muffs also examines how expressions of divine power, divine will and divine love throughout the Bible have helped develop the contemporary human condition and our enriching dialectic between faith and doubt.

Nulaid News, 1923 Personal Speech-ethics in the Epistle of James William R. Baker, 1995 God in History Christian Karl Josias Freiherr von Bunsen, 1868 **The Cradle of God** Llewelyn Powys, 1929 **New York Times Current History**, 1915 **The New York Times Current History**, 1915 **Approaches to Homer's Iliad and Odyssey** Κώστας Μυρσιάνδης, 2010 Approaches to Homer's Iliad and Odyssey consists of ten original essays on the Iliad and Odyssey by established Homeric scholars and university professors of Greek literature and culture. The anthology offers not only fresh approaches to reading, appreciating and understanding these Homeric epics but also attempts to make a case why these works are still relevant in the twenty-first century. Both epics are required reading in most college/university general and world literature courses as is evident from their inclusion in part or in whole in many standard world literature anthologies. These ten new approaches to the first literary works of Western culture are intended as reading aids for both instructors and students in any college/university classroom in which either of these two Homeric epics are taught.

God Is a Heartless Recluse John Likides, 2017-10-17 The

story of an atheist's search for universal ethics. God Is a Heartless Recluse demonstrates that theists' claim of God as their Heavenly Father is delusional. A god who allows terminal childhood diseases, mass murderers, cannibals, and genocides is at best a heartless recluse. In reality, God is a figment of megalomaniacal minds that don't have the courage to accept the facts: Humans evolved from earlier primates; God is a human invention; animism, panpsychism, pantheism, polytheism, monotheism. The universe is indifferent to humanity. Paradise is a fictional luxury resort. Humanity is an adolescent civilization with the potential to mature, spread across the Milky Way, then to other galaxies and other universes, to live forever in this eternal multiverse.
