The Score Faye Flam,2008-06-12 A smart witty and fresh look at the male side of the male female relationship from a science writer at The Philadelphia Inquirer In The Score Faye Flam examines how the desire to score has profoundly shaped males over millions of years Sweeping from the origin of the sexes to the sexual foibles of twenty first century humans Flam a science writer at The Philadelphia Inquirer shows how a small difference in the size of the first sperm and eggs resulted in an evolutionary tradeoff that has affected both males and females Because males of most species invest less in reproduction than females they have to invest more up front to get sex whether by jumping through hoops to prove that they ll be a good father fighting to near death with rivals or

paying a couple thousand dollars for a class on how to pick up chicks la the pickup artists in Neil Strauss s The Game Within this tug of war context Flam explores a wide range of male behaviors and courtship strategies and ultimately reveals that males have been shaped by competing for the preferences of the female sex But after all this sex propelled evolution we re still stuck in a troublesome suspension between monogamy and promiscuity and it s this tension that explains the contradictions of the modern man

Desperately Seeking Self-Improvement Carl Cederström and André Spicer, 2017-10-20 In these pages the authors of the widely acclaimed *The Wellness Syndrome* throw themselves headlong into the world of self optimization a burgeoning movement that seeks to transcend the limits placed on us by being merely human whether the feebleness of our bodies or our mental incapacities Cederström and Spicer though willing guinea pigs in an extraordinary and sometimes downright dangerous range of techniques and technologies had hitherto undertaken little by way of self improvement They had rarely seen the inside of a gym let alone utilized apps that deliver electric shocks in pursuit of improved concentration But in the course of a year spent researching this book they wore head bands designed to optimize meditation attempted to boost their memory through learning associative techniques and failed to be admitted to MENSA trained for weightlifting competitions wrote what they still hope might become a bestselling Scandinavian detective story enrolled in motivational seminars and tantra sex workshops attended new age retreats and man camps underwent plastic surgery and experimented with vibrators and productivity drugs Andr even addressed a London subway car whilst nearly naked in an attempt to boost attention Somewhat surprisingly the two young professors survived this year of rigorous research Further they have drawn deeply on it to produce a hilarious and eye opening book Written in the form of two parallel diaries *Desperately Seeking Self Improvement* provides a biting analysis of the narcissism and individual competitiveness that increasingly pervades a culture in which social solutions are receding and individual self improvement is the only option left
