

Winningham's *Critical Thinking Cases in Nursing*: Case Study 76: "Endocrine Disorders"

Scenario:

Y.L., a 34-year-old Southern Asian Woman, comes to the clinic with complaints of chronic fatigue, increased thirst, constant hunger, and frequent urination. She denies any pain, burning, or low-back pain on urination. She tells you she has a vaginal yeast infection that she has treated numerous times with over-the-counter medication. She works full time as a clerk in a loan company and states she has difficulty reading numbers and reports, resulting in her making frequent mistakes. She says, "By the time I get home and make supper for my family, then put my child to bed, I am too tired to exercise." She reports her feet hurt; they often "burn or feel like there are pins in them." She has a history of gestational diabetes and reports that after her delivery she went back to her traditional eating pattern, which is high in carbohydrates.

In reviewing Y.L.'s chart, you note she last saw the provider 6 years ago after the delivery of her last child. She gained considerable weight; her current weight is 173 pounds. Today her blood pressure (BP) is 152/97 mm Hg. and a random plasma glucose level is 291 mg/dL. The provider suspects that Y.L. has developed type 2 diabetes mellitus (DM) and orders the laboratory studies shown in the chart.

Chart View

Laboratory Test Results:

Fasting glucose	184 mg/dL
Hemoglobin A _{1c} (HbA _{1c})	8.8%
Total cholesterol	256 mg/dL
Triglycerides	346 mg/dL
Low-density lipoprotein (LDL)	155 mg/dL
High-density lipoprotein (HDL)	32 mg/dL
Urinalysis (UA)	+glucose, -ketones

Answer the following questions and statements.

- Each question is assigned a point value.
- Submit the completed worksheet to the Dropbox no later than Day 7 of Unit 4.
- Your instructor will post the grade for this Assignment in the Gradebook no later than Day 7 of Unit 5.

overview of catheter ablation of cardiac arrhythmias uptodate - Jul 14 2023

web feb 14 2022 the clinical role of catheter ablation in the treatment of arrhythmias will be reviewed here a discussion of invasive cardiac electrophysiology studies and cardiac mapping both precursors to catheter ablation is presented separately see invasive diagnostic cardiac electrophysiology studies

catheter ablation of cardiac arrhythmias wiley online books - Jan 08 2023

web catheter ablation of cardiac arrhythmias basic concepts and clinical applications catheter ablation of cardiac arrhythmias basic concepts and clinical applications editor s douglas l packer md william g stevenson md first published 28 november 2007 print isbn 9781405131179 online isbn 9780470696279 doi

advanced catheter ablation new tips techniques and - Apr 11 2023

web oct 18 2023 washington dc 20036 course description this course will provide comprehensive instruction for diagnosing common and complex cardiac arrhythmias in the electrophysiology laboratory and achieving effective and safe ablation case based illustrative presentations will highlight diagnostic dilemmas and key management strategies

catheter ablation of cardiac arrhythmias forms of energy and - Apr 30 2022

web application of an alternating current at the catheter tip induces heating of tissue and thus leads to ablation of a targeted arrhythmogenic substrate high temperatures 70 c at the catheter tip and 95 c within the tissue bear the risk of coagulum formation and steam pops and should be avoided which limits power application the

catheter ablation of atrial arrhythmias state of the art - Oct 05 2022

web catheter ablation is at the forefront of the management of a range of atrial arrhythmias in this series paper we discuss the underlying mechanisms and the current role of catheter ablation for the three most common atrial arrhythmias encountered in clinical practice focal atrial tachycardia atrial flutter and atrial fibrillation

catheter ablation of cardiac arrhythmias expert consult online and print - Oct 17 2023

web nov 22 2010 the 2 nd edition of catheter ablation of cardiac arrhythmias written by shoei k stephen huang md and mark a wood md provides you with the most comprehensive and detailed coverage of the latest ablation techniques from direct current to radiofrequency to cryoenergy

catheter based electroporation a novel technique for catheter ablation - Dec 07 2022

web catheter ablation of arrhythmias is now standard of care in invasive electrophysiology current ablation strategies are based on the use of thermal energy with continuous efforts to optimize thermal energy delivery effectiveness has greatly improved however safety concerns persist

catheter ablation for persistent atrial fibrillation jama network - Mar 10 2023

web catheter ablation for persistent atrial fibrillation compared with treatments for other cardiac arrhythmias the treatment of atrial fibrillation af has changed dramatically in the last 25 years the landmark work of haïssaguerre et al established the pulmonary veins as the initiation site of af in the majority of cases and launched the era

catheter ablation cadence heart centre - Aug 15 2023

web there are different types of arrhythmias in which the heart may beat too fast tachycardia too slow bradycardia or with an irregular pattern catheter ablation also known as cardiac ablation uses heat or cold energy to create tiny scars in small areas of the heart tissues that are responsible for rhythm problems
