The Winter of Our Discount Tent Jim Mize,1995 According to Jim Mize nature has no mercy just a sense of humor and in this hilarious romp through the woods he proves why readers praise him as an amusing combination of Marlin Perkins and Lewis Grizzard The way Jim tells it such overlooked creatures as fleas flying squirrels and chipmunks become curiosities of hilarious proportions In the opening section Jim waxes comic about carnivorous plants insects that make people nervous and birds with bad names He points out for instance that all plants are edible It s just that some of them will kill you He also notes potential uses for kudzu erosion control livestock fodder and hiding the neighbors house as a prank while they re on vacation From the quirks of nature Mize graduates to greasy kid stuff He tells parents how to referee while paddling a boat raise kids that people like and survive the two hobbies no child can resist rock collecting and entomology And Jim has plenty of musings about hunting and fishing Outdoors people are sure to chuckle as he ponders the purpose of carp fish so ugly they have to spawn in muddy water the perplexities of orienteering Getting lost has never been much of a problem for me the problem is getting found and the procedure for getting crappie to bite at night Lay your rod down hold a cup of scalding coffee in one hand and a floppy sandwich in the other and if possible try to balance the open thermos on one leg Then just wait Bait is optional Saving some of his most laugh provoking observations for his final section Jim answers age old questions about why women fish better than men why people give homes to shoe chewing puppies and where to takespouses for a special occasion he recommends steering clear of restaurants that proudly accept Bass Pro Shop credit cards Jim s entertaining insights are guaranteed to make you laugh out loud in renewed appreciation of the great outdoors **The Winter of the Robots** Kurtis Scaletta,2013 There s something lurking in the junkyard in Jim Knox s neighborhood and it s up to him and his friends and science fair rivals to put their robot building skills together in order to defeat it Earth Under Fire Paul A. LaViolette,2005-10-25 An investigation of the connection between ancient world catastrophe myths and modern scientific evidence of a galactic destruction cycle Provides scientific evidence of past Earth wide catastrophes and their galactic superwave origins Decodes the ancient message encrypted in the zodiac constellations and symbolism of the Sphinx Describes how explosions of our Galaxy s core pose a threat to humanity in the future Many ancient myths from around the world tell of catastrophic destruction by fire and flood These ubiquitous legends are so extreme that they are often dismissed as imaginative exaggerations In Earth Under Fire Paul LaViolette connects these myths to recent scientific findings in astronomy geology and archaeology to reconstruct the details of prehistoric global disasters and to explain how similar tragedies could recur in the near future Compelled by his decryption of an ancient warning hidden in zodiac constellation lore LaViolette worked with information from many scientific sources including astronomical observations polar

ice core measurements and other geological data to confirm that our Galaxy's core exploded near the end of the last ice age. This explosion unleashed a barrage of cosmic rays and enveloped the solar system in a dense nebula which led to periods of persistent darkness, frigid cold, severe solar storms, searing heat, and mountainous floods that plagued mankind for many generations. Linking his scientific findings to details preserved in the myths and monuments of ancient civilizations, he demonstrates how past civilizations accurately recorded the causes of these cataclysmic events, knowledge of which may be crucial for the human race to survive the next catastrophic superwave cycle. This information reveals the intelligence and ingenuity of our ancestors who, when faced with extinction, found the means to warn us that the apocalypse that destroyed them could occur once again.

Winter of Worship Kayleb Rae Candrilli, 2025-01-07 Steeped in loss of climate and childhood of fathers and friends, *Winter of Worship* finds survival in our tender human connections. Told through an ever queer lens, Kayleb Rae Candrilli's fourth collection, *Winter of Worship*, is a patchwork of the pastoral and the litter swirled around us: a pandemic, global warming, a hometown hit by storms of fentanyl and Oxycontin scripts. A book of elegy told in ghazals, *Marble Runs*, and other forms, these poems reckon with loss of climate, of fathers, of youth. Candrilli writes, "We are so young to know so much about life without our friends." Steeped in the grief of these losses, *Winter of Worship* finds healing in the smallest memories: Nokia phone cases, jalapeño gardens, pop flies, 67 Dodge darts. YouTube mixes all electronica and glitch. We also find survival in our tender human connections: an iPod tucked into the jacket pocket of a drifter, a kiss pressed to a partner's forehead, a mother calling her child by their chosen name. From the cornfields of Pennsylvania to the streets of downtown Brooklyn, these poems refuse to forget, refuse to lose an ounce of gentleness.
