Elements of Winter's Chill DeForrest L. Howell,2009-04-09 Countless winters have passed and the collections of elements emerge ELEMENTS OF WINTER S CHILL is more than a collection of poems It s an expression of the soul and how the environment climate contributes to that In the author s eyes winter represented the mind and the elements represent the different parts of his personalities The author wanted to capture the emotions that he has in his favorite season Unlike most individuals winter is the worst season to experience Climate conditions are hazardous to our health and nature dies To the author winter is necessary for survival It teaches us that we must be able to survive conditions beyond our control to become stronger Winter is necessary because it brings love ones closer together it causes body temperatures to drop thus causing the heart to warm our souls ELEMENTS OF WINTER S CHILL is separated into three climate conditions SNOW FROST ICE The author wanted to bring these elements to life Using each element to present its views on the challenges in life metaphorically creating visual images into the readers mind In order for these experiences to be shared with society the author had to face these challenges first hand
