Y House Steven Holl:

New Country House Dominic Bradbury, 2005 Until recently radical architecture has had no place in a rural context But now people are beginning to buck this trend taking powerful design statements into the countryside This title uses 30 case studies to show how modern approaches are now being used to challenge the notion of the traditional country house

Steven Holl Architect Kenneth Frampton, 2003 The definitive monograph on the leading American architect *The Un-private House* Terence Riley, 1999 This book looks at twenty six houses by an international roster of contemporary architects P 4 of cover **House: Black Swan Theory** Steven Holl, 2007-03-29 Using site as a starting point readers can follow Holl s entire creative process The text contains watercolours photographs renderings plans and sketches for houses in New York Arizona Texas Washington D C and Martha s Vineyard *Sketching for Architecture + Interior Design* Stephanie Travis, 2015-07-20 The debate surrounding hand drawing versus computer generated imagery has become a hot topic Having grown up with computers today s interior design and architecture students are extremely adept at creating computer imagery but often lack confidence in their freehand sketching skills or do not know how to sketch at all Sketching and the careful observation that it entails is essential for the successful development of the next generation of designers Forty five step by step exercises take the student from the simple three dimensional forms of furniture to interiors to complex building exteriors and cityscapes Technical topics covered include tools line weights perspective proportion composition shading serial views and context Exercises are illustrated with beautiful sketches specially created by the author Sketching for Architecture Interior Design is an indispensable and practical guide for students wishing to master the art of looking and sketching **A Philosopher Looks at Architecture** Paul Guyer, 2021-05-20 What should our buildings look like Or is their usability more important than their appearance Paul Guyer argues that the fundamental goals of architecture first identified by the Roman architect Marcus Pollio Vitruvius good construction functionality and aesthetic appeal have remained valid despite constant changes in human activities building materials and technologies as well as in artistic styles and cultures Guyer discusses philosophers and architects throughout history including Alberti Kant Ruskin Wright and Loos and surveys the ways in which their ideas are brought to life in buildings across the world He also considers the works and words of contemporary architects including Annabelle Selldorf Herzog and de Meuron and Steven Holl and shows that despite changing times and fashions good architecture continues to be something worth striving for This new series offers short and personal perspectives by expert thinkers on topics that we all encounter in our everyday lives *House* Cathy Lang Ho, Raul A. Barreneche, 2001 The idea and function image and built reality of the house vary from culture to culture locale to locale generation to generation demographic to demographic Houses do much more than provide a roof over our heads They are sanctuaries havens our private kingdoms our personalized cocoons They are backdrops to our everyday lives They are status symbols They are economic indicators For architects they are dream jobs test beds manifestos only by understanding the

predominant reality of and the prevailing attitudes toward the house can we appreciate the great leaps and changes it is and always has been undergoing The houses in this book represent new ideas about how to build houses how they are rooted and root us to their locale and how we use and regard them The first chapter Tectonics features houses that explore the novel application of materials and building techniques in the domestic realm Next Context showcases houses that actively engage in their site drawing inspiration whether in texture form or topography from their surrounding landscape Lastly Revolutions addresses the significant shifts our lifestyles have undergone and how the house has responded to them House features twenty recently built houses that have been designed by some of today's leading architects including Steven Holl Toshiko Mori Alberto Kalach and Rick Joy By leading readers to the cutting edge of today's architecture authors Ho and Barreneche relate today's building trends and hint at what awaits us in the future Featuring more than 200 color photographs and plans House is the perfect book for house enthusiasts worldwide 25 Concepts in Modern Architecture Stephanie

Travis, Catherine Anderson, 2021-08-26 Designed to appeal to visual thinkers 25 Concepts in Modern Architecture explores the fundamental ideas behind architectural design through easy to follow sketches drawings and succinct explanations Twenty five concepts each of which are key to architectural design thinking are accessibly explained by examining twenty five different masterworks of modern architecture For example the concept of movement in architectural design is explained through a close look at a Le Corbusier building transparency is examined in Philip Johnson's seminal Glass House asymmetry is understood through the work of Zaha Hadid and so on through twenty five core concepts and twenty five of the most significant buildings of the modern era Taking a highly visual approach this simple yet visually powerful guide is an essential companion in the design studio and to introductory courses in modern architecture interior architecture and interior design Understanding these concepts will provide a key to demystifying the greatest works in modern architectural history inspire new ways to think about new design projects and reveal how drawing and sketching are used as tools for the visual analysis of architecture Adolf Loos Joseph Masheck, 2013-03-21 Widely regarded as one of the most significant prophets of

modern architecture Adolf Loos was a celebrity in his own day His work was emblematic of the turn of the century generation that was torn between the traditional culture of the nineteenth century and the innovative modernism of the twentieth His essay Ornament and Crime equated superfluous ornament and decorative arts with tattooing in an attempt to tell modern Europeans that they should know better But the negation of ornament was supposed to reveal not negate good style and an incorrigible ironist has been taken too literally in denying architecture as a fine art Without normalizing his edgy radicality Masheck argues that Loos masterful astylistic architecture was an appreciation of tradition and utility and not as most architectural historians have argued a mere repudiation of the florid style of the Vienna Secession Masheck reads Loos as a witty ironic rhetorician who has all too often been taken at face value Far from being the anti architect of the modern era Masheck's Loos is an unruly yet integrally canonical artist architect He believed in culture comfort intimacy and privacy

and advocated the evolution of artful architecture This is a brilliantly written revisionist reading of a perennially popular architect *Delirio y mas* Rem Koolhaas, 2006 This extensive publication by the Spanish Architectural magazine El Croquis presents a comprehensive overview of the major building projects that Koolhaas and his OMA have created since 1996 It shows conceptual plans drawings floor plans cross sections models and photographs of the following projects Hyperbuilding Bordeaux House and Pool The Sustainable House Port of Genoa Universal Headquarters Building De Rotterdam Building Vertical City MoCA Museum of Contemporary Arts Rome UN City Schiphol City New Concept for the Schiphol Site Wenner House The Distributed House 3 USA Prada Epicenters in store Technology Prada San Francisco Epicenter Prada New York Epicenter Prada Los Angeles Epicenter Astor Place Hotel Cordoba Congress Center Flick House I II Whitney Museum Extension LACMA Los Angeles County Museum of Art Koningin Julianaplein CCTV Television Station and Headquarters and TVCC Cultural Center NATO Headquarters Deltametropool European Union and Brussels Study The McCormick Tribune Campus Center at IIT H e rmitage Museum Extension St Petersburg Quartier des Halles Urban Development Study European Central Bank Headquarters Netherlands Embassy in Berlin and the Content Exhibition New Wood Architecture Ruth Slavid, 2005-01-01 A detailed and timely look at the resourceful ways wood is being used in some of the world s most innovative new buildings

A Language of Contemporary Architecture Rafael Luna, Dongwoo Yim, 2023-05-05 As a way to understand the contemporary project in architecture this book provides an index of ideas theories projects and definitions that string into a methodology for evaluating the contemporary language of architecture described as contemporism through a review of topology form and typology system and elements The contemporary project has been trying to answer the postmodern question of how to move beyond modernism through a thread of architectural styles that tried to respond to deficiencies from the modern promise and contextual changes Yet the question remains should this ongoing struggle to move beyond modernism be a stylistic battle Has the present architectural practice ever left the modernist tendencies and is there a structure for a contemporary language in architecture This book presents a collection of highly illustrated projects that have worked under these parameters to break away from modernism in order to present a holistic integration of topology and typology as a language for contemporism The index is illustrated with individual spreads which can be read sequentially or independently and encourages the reader to make their own connections It also includes interviews and contributions from Toyo Ito Anthony Vidler Ben van Berkel Christian Kerez and Greg Lynn This book is essential reading for undergraduate and graduate students in architecture

Wood Architecture Ruth Slavid, 2005 Timber is having a renaissance as an architectural material as more architects come to understand its properties and enjoy adding it to their repertoire of materials With a growing crop of good new timber buildings architects are coming to realise that this is no longer the sole preserve of the traditionalist but a material that has an important role to play in the contemporary world The book s introduction examines the ways in which a raw material of diminishing quality but abundant quantity can be stretched to perform as it has never

done before using new technology and careful detailing The 40 case studies are devoted to some of the most interesting new wood projects from around the world The projects are grouped in seven themed chapters Featured architects from around the world include Steven Holl Foster and Partners Rural Studio Renzo Piano and Shigeru Ban Urban and Transit Planning Paola Gallo, Simon Elias Bibri, Francesco Alberti, Abraham R.
