The Plays and Poems of William Shakespeare: Much ado about nothing. Hamlet William Shakespeare, Edmond Malone, 1821 *Processes and Perspectives; Sacred and Secular* D. George Harrison, 2011-04-12 PROCESSES AND PERSPECTIVES deals with the evolution creation issue but in a different manner from the usual mainstream works As a retired professional biologist and Christian I defend Darwins basic concepts of natural selection and disagree with the creationists perspective on Darwin in general and this topic specifically This work focuses on modern science and scriptures commonalities by examining the full range of meaning for the Genesis Hebrew words and the most current legitimate science As a result there are many new insights into science and the Genesis story Also addressed are random chance falsification literalism and other related issues This book not only demonstrates to religious and secular skeptics that the concept of organic and inorganic evolution is perfectly valid but that the Genesis account is also valid if read without all the historic and current presumptions This work violates only both sides preconceived notions and entrenched misunderstandings of each other There is no scripture twisting or alternative science used to show the commonalities of the two on this subject This
