Emerson in Iran Roger Sedarat, 2019-06-01 Examines the impact of Persian poetry in the work of Ralph Waldo Emerson Emerson in Iran is the first full length study of Persian influence in the work of the seminal American poet philosopher and translator Ralph Waldo Emerson Extending the current trend in transnational studies back to the figural origins of both the United States and Iran Roger Sedarat s insightful comparative readings of Platonism and Sufi mysticism reveal how Emerson

managed to reconcile through verse two countries so seemingly different in religion and philosophy By tracking various rhetorical strategies through a close interrogation of Emerson's own writings on language and literary appropriation Sedarat exposes the development of a latent but considerable translation theory in the American literary tradition He further shows how generative Persian poetry becomes during Emerson's nineteenth century and how such formative effects continue to influence contemporary American poetry and verse translation This is the book on this subject I have been waiting for Indeed Sedarat goes further than satisfying curiosity about familiar but undertheorized figures texts and traditions he also reveals ones that I didn't know I should know and care about His prose is at once lucid and learned He manages with great tact and insight to move from poet to poet poem to poem line to line across time and tradition so that the reader remains oriented to the idea at hand and moreover capable of grasping its relevance to the project and its broader significance for our thinking about the legacy of Emerson's writing and thought David LaRocca author of *Emerson's English Traits and the Natural History of Metaphor* *THE GOSPEL OF JOHN Original Version - Volume II* translated by James David Audlin, 2014-02 The only narrative about Jesus by eyewitnesses this is also one of the world's greatest literary works The unfinished text was spirited off to Sinope when the author was sent into exile Even there the hand of Rome nearly destroyed it Rescued 35 years later the author's spiritual heirs published it While in Sinope some pages got lost or disordered After publication various editors changed the manuscript repeatedly to suit the changing doctrines of early Christianity even adding spurious new material Thus the standard text is an inspiring mess but still a mess This translation restores not the unfinished original text but the masterpiece the author sought to compose a first hand account of a real man sent to urge humanity to accept God's will set down before doctrine repackaged him as an incarnate deity Volume One contains the carefully restored text and a history of the gospel Volume Two includes commentaries that burnish this masterpiece for the modern reader The Philogelos or Laughter-Lover B. Baldwin, 2024-09-23 *Wine and Identity* Matt Harvey, Leanne White, Warwick Frost, 2014-01-10 In an increasingly competitive global market winemakers are seeking to increase their sales and wine regions to attract tourists To achieve these aims there is a trend towards linking wine marketing with identity Such an approach seeks to distinguish wine products whether wine or wine tourism from their competitors by focusing on cultural and geographical attributes that contribute to the image and experience In essence marketing wine and wine regions has become increasingly about telling stories engaging and provocative stories which engage consumers and tourists and translate into sales This timely book examines this phenomena and how it is leading to changes in the wine and tourism industries for the first time It takes a global approach drawing on research studies from around the world including old and new world wine regions The volume is divided into three parts The first branding investigates cases where established regions have sought to strengthen their brands or newer regions are striving to create effective emerging brands The second heritage considers cases where there are strong linkages between cultural heritage and wine marketing The third section

terroir explores how a sense of place is inherent in winescapes and regional identities and is increasingly being used as a distinctive selling proposition This significant volume showcasing the connections between place identity variety and wine will be valuable reading for students researchers and academics interested in tourism marketing and wine studies
