Winning His Vote English Edition

Edmund Spenser

Winning His Vote English Edition:

Campaign of the Century Irwin F. Gellman, 2022-01-04 Based on massive new research a compelling and surprising account of the twentieth century's closest election The 1960 presidential election between John F Kennedy and Richard Nixon is one of the most frequently described political events of the twentieth century yet the accounts to date have been remarkably unbalanced Far more attention is given to Kennedy's side than to Nixon's The imbalance began with the first book on that election Theodore White's *The Making of the President 1960* in which as he later admitted White deliberately cast Kennedy as the hero and Nixon as the villain and it has been perpetuated in almost every book since then Few historians have attempted an unbiased account of the election and none have done the archival research that Irwin F Gellman has done Based on previously unused sources such as the FBI's surveillance of JFK and the papers of Leon Jaworski vice presidential candidate Henry Cabot Lodge and many others this book presents the first even handed history of both the primary campaigns and the general election The result is a fresh engaging chronicle that shatters long held myths and reveals the strengths and weaknesses of both candidates

Presidential Campaigns, Slogans, Issues, and Platforms Robert North Roberts, Scott John Hammond, Valerie A. Sulfaro, 2012-06-12 The book provides a comprehensive discussion of the major issues and events surrounding all American presidential elections from the earliest years of the Republic through the campaign of 2008 *Presidential Campaigns Slogans Issues and Platforms The Complete Encyclopedia* is an easy to use reference work designed to encourage students and anyone interested in democratic politics to undertake a greater understanding of this complex aspect of American political life The three volume work covers each presidential campaign in depth examining a large number of related issues ranging from the use of social media in modern presidential campaigns to negative campaign ads and key slogans used in every presidential campaign Volume One contains entries offering specific and focused information on issues trends factors slogans strategies and other more detailed elements of presidential campaigning from the first stirrings of the American democratic process to the first decade of the 21st century Volumes Two and Three provide chronological accounts of every presidential campaign since the ratification of the Constitution through the campaign of 2008 with Volume Two covering the campaign of 1788-89 to the campaign of 1908 and Volume Three covering the campaign of 1912 to the campaign of 2008
