The Publishers' Circular and General Record of British and Foreign Literature ,1888 *Publishers' Circular and Booksellers' Record of British and Foreign Literature* ,1888 The Recreations of Christopher North Anonymous,2023-12-30
Reprint of the original first published in 1874 **The Speaker** ,1907 *The New-York Mirror* ,1834 **The Love Books of Ovid** Ovid,1937 A John Steinbeck Encyclopedia Brian Railsback,Michael Meyer,2006-09-30 One of the greatest novelists of the 20th century John Steinbeck continues to be read and studied at all levels This encyclopedia extensively overviews his life and writings Included are roughly 1200 alphabetically arranged entries by more than 40 expert contributors Entries cover his works major characters family members and contemporaries influences and various special topics related to his literary career Many of the entries cite works for further reading and the encyclopedia closes with a selected general bibliography Known for his searing social criticism John Steinbeck is one of the most popular and influential American writers of the 20th century His works are read and studied at all levels and have been made into films And though critics and scholars initially found fault with his enormously popular works he is now widely recognizes as a master of his craft This encyclopedia provides an extensive overview of his life and career and is accessible to high school students undergraduates and general readers Presented are roughly 1200 alphabetically arranged entries by more than 40 expert contributors These entries cover his works major characters family members and contemporaries influences and a range of special topics **Homesick** Lyla Yastion,2018-09-15 Human induced climate change is emerging as the most critical issue of the modern era Ninety seven percent of climate scientists now confirm that human extraction and burning of fossil fuels along with rampant deforestation is causing a rapid build up of carbon dioxide and other greenhouse gases in air and water These emissions heat up the planet and may be pushing Earth s capacity beyond the threshold at which equilibrium can be restored Global warming is sustained by a global capitalist economy dependent upon the fossil fuel industry and agribusiness both of which are unsustainable The toxic effects of air pollution ocean acidification and soil degradation are harming the health of all species Through an interdisciplinary approach that brings in the perspectives of the physical sciences psychology anthropology economics cultural history and spirituality Homesick investigates the evolutionary path by which human beings have arrived at this precarious juncture It proposes that this perilous detour in human cultural evolution arises from a fallacious belief that the human species unlike other species is not bound by ecological laws but has a special right to control and master the natural world Human beings suffer from the illusion that they are separate from the Earth their planetary home which is perceived as an object a commodity to exploit through technology They have forgotten what indigenous peoples still remember humanity is part of not apart from the natural world Homesick argues that cultural transformation towards a sustainable future is possible when human beings reawaken to Nature as partner and provider As memory of their embeddedness in the natural world is aroused they will experience love and respect for the interdependent

web of life that sustains them This reawakening incrementally induces a radical change in thinking within society and sets in motion a paradigm shift Cultural institutions are then reshaped to match this new benign worldview

Reimagining Thoreau Robert Milder, 1995-03-31 Reimagining Thoreau synthesizes the interests of the intellectual and psychological biographer and the literary critic in a reconsideration of Thoreau's career from his graduation from Harvard in 1837 to his death in 1862 The purposes of the book are threefold 1 to situate Thoreau's aims and achievements as a writer within the context of his troubled relationship to m microcosm of ante bellum Concord 2 to reinterpret Walden as a temporally layered text in light of the successive drafts of the book and the evidence of Thoreau's journals and contemporaneous writings and 3 to overturn traditional views of Thoreau's decline by offering a new estimate of the post Walden writing and its place within Thoreau's development
