Birdseye Mark

Mark Kurlansky, 2013-02-12 While working as a fur trapper in Labrador Canada Clarence Birdseye encountered an age old problem bad food and an unappealing unhealthy diet However he observed that fresh vegetables wetted and left outside in the Arctic winds froze in a way that maintained their integrity after thawing As a result he developed his patented Birdseye freezing process and started the company that still bears his name Birdseye forever changed the way we preserve store and distribute food and the way we eat Mark Kurlansky's vibrant and affectionate narrative reveals Clarence Birdseye as a quintessential can do American inventor his other patents include an electric sunlamp a harpoon gun to tag finback whales and an improved incandescent lightbulb and shows how the greatest of changes can come from the simplest of ideas and the unlikely of places

City Beasts Mark Kurlansky, 2015-02-03 All new stories about the urban worlds where animals and humans fight love and find common ground from the nationally bestselling author of Cod and Salt In these stories Mark Kurlansky journeys to his familiar haunts like New York's Central Park or Miami's Little Havana but with an original earthy and adventurous perspective From baseball players in the Dominican Republic to Basque separatists in Spain to a restaurant owner in Cuba from urban coyotes to a murder of crows Kurlansky travels the worlds of animals and their human counterparts revealing moving and hilarious truths about our connected existence In the end he illuminates how closely our worlds are aligned how humans really are beasts susceptible to their basest instincts their wildest dreams and their artful survival

The Food of a Younger Land Mark Kurlansky, 2009-05-14 Recommended by Chef Jos Andr's on The Drew Barrymore Show A remarkable portrait of American food before World War II presented by the New York Times bestselling author of Cod and Salt Award

winning New York Times bestselling author Mark Kurlansky takes us back to the food and eating habits of a younger America Before the national highway system brought the country closer together before chain restaurants imposed uniformity and low quality and before the Frigidaire meant frozen food in mass quantities the nation's food was seasonal regional and traditional It helped form the distinct character attitudes and customs of those who ate it In the 1930s with the country gripped by the Great Depression and millions of Americans struggling to get by FDR created the Federal Writers Project under the New Deal as a make work program for artists and authors A number of writers including Zora Neale Hurston Eudora Welty and Nelson Algren were dispatched all across America to chronicle the eating habits traditions and struggles of local people The project called America Eats was abandoned in the early 1940s because of the World War and never completed The Food of a Younger Land unearths this forgotten literary and historical treasure and brings it to exuberant life Mark Kurlansky's brilliant book captures these remarkable stories and combined with authentic recipes anecdotes photos and his own musings and analysis evokes a bygone era when Americans had never heard of fast food and the grocery superstore was a thing of the future Kurlansky serves as a guide to this hearty and poignant look at the country's roots From New York automats to Georgia Coca Cola parties from Arkansas possum eating clubs to Puget Sound salmon feasts from Choctaw funerals to South Carolina barbecues the WPA writers found Americans in their regional niches and eating an enormous diversity of meals From Mississippi chittlins to Indiana persimmon puddings Maine lobsters and Montana beavertails they recorded the curiosities commonalities and communities of American food

Living Beings Penelope Dransart, 2020-06-03 Living Beings examines the vital characteristics of social interactions between living beings including humans other animals and trees Many discussions of such relationships highlight the exceptional qualities of the human members of the category insisting for instance on their religious beliefs or creativity In contrast the international case studies in this volume dissect views based on hierarchical oppositions between human and other living beings Although human practices may sometimes appear to exist in a realm beyond nature they are nevertheless subject to the pull of natural forces These forces may be brought into prominence through a consideration of the interactions between human beings and other inhabitants of the natural world The interplay in this book between social anthropologists philosophers and artists cuts across species divisions to examine the experiential dimensions of interspecies engagements In ethnographically and or historically contextualized chapters contributors examine the juxtaposition of human and other living beings in the light of themes such as wildlife safaris violence difference mimicry simulation spiritual renewal dress and language

The Survival of Myth Paul Hardwick, David Kennedy, 2010-04-16 What are myths and what are they for Myths are stories that both tell us how to live and remind us of the inescapability and pull of the collective past The Survival of Myth Innovation Singularity and Alterity explores the continuing power of primal stories to inhabit our thinking An international range of contributors examine a range of texts and figures from the Bible to Cormac McCarthy and from Thor to the Virgin Mary to focus on the way that ancient stories both

give access to the unconscious and offer individuals and communities personae or masks Myths translated and recreated become in this sense very public acts about very private thoughts and feelings The subtitle of the book Innovation Singularity and Alterity reflects the way in which the history of cultures in all genres is a history of innovation of a search for new modes of expression which paradoxically often entails recourse to myth precisely because it offers narratives of singularity and otherness which may be readily appropriated The individual contributors offer testament to the continuing significance of myth through its own constant metamorphosis as it both reflects and transforms the societies in which it is re produced

Bloodline of the Gods Nick Redfern,2025-09-12 Are significant numbers of humanity the product of an ancient and advanced alien civilization Have we across the millennia been periodically modified and refined as a species In short has our genetic make up been manipulated by otherworldly beings that view human civilization as one big lab experiment These are controversial and thought provoking questions They are also questions that demand answers answers that may very well be found by examining those people whose blood type is Rh negative The vast majority of humankind 85 to 90 percent is Rh positive which means a person s red blood cells contain an antigen directly connected to the Rhesus monkey This antigen is known as the Rh factor Each and every primate on the planet has this antigen except for one the remaining 10 to 15 percent of humans If the theory of evolution is valid that each and every one of us is descended from ancient primates shouldn t we all be Rh positive Yes we should But we re not The Negatives are unlike the rest of us They are different They are the unique individuals whose bloodline may have nothing less than extraterrestrial origins

[Food and Multiculture](#) Alex Rhys-Taylor,2020-05-12 In this book Alex Rhys Taylor offers a ground breaking sensory ethnography of East London Drawing on the multicultural context of London one of the most cosmopolitan cities in the world he explores concepts such as gentrification class antagonism new ethnicities and globalization Rhys Taylor shows how London is characterized by its rich history of socioeconomic change and multicultural exploring how its smells and food are integral to understanding both its history and the reality of London s urban present From the fiery chillies sold by street grocers which are linked to years of cultural exchange through cuisines of origin like jellied eels to hybridized dishes such as the chicken katsu wrap sensory experiences are key to understanding the complex cultural genealogies of the city and its social life Each of the eight chapters combines micro histories of ingredients such as fried chicken bush meat and curry sauce featuring narratives from individuals that provide a unique engaging account of the evolution of taste and culture through time and space With its innovative methodology this is a highly original contribution to the fields of sensory studies food studies urban studies and cultural studies

The Eastern Stars Mark Kurlansky,2010-04-15 The intriguing inspiring history of one small impoverished area in the Dominican Republic that has produced a staggering number of Major League Baseball talent from an award winning bestselling author In the town of San Pedro in the Dominican Republic baseball is not just a way of life It s the way of life By the year 2008 seventy nine boys and men from San Pedro have gone on to play in the Major Leagues that means one in six Dominican Republicans who have played in the Majors have come from one tiny impoverished region Manny Alexander Sammy Sosa Tony Fernandez and legions of other San Pedro players who came up in the sugar mill teams flocked to the United States looking for opportunity wealth and a better life Because of the sugar industry and the influxes of migrant workers from across the Caribbean to work in the cane fields and factories San Pedro is one of the most ethnically diverse areas of the Dominican Republic A multitude of languages are spoken there and a variety of skin colors populate the community but the one constant is sugar and baseball The history of players from San Pedro is also a chronicle of racism in baseball changing social mores in sports and in the Dominican Republic and the personal stories of the many men who sought freedom from poverty through playing ball The story of baseball in San Pedro is also that of the Caribbean in the twentieth and twenty first centuries and on a broader level

opens a window into our country's history. As with Kurlansky's *Cod* and *Salt*, this small story rich with anecdote and detail becomes much larger than ever imagined. Kurlansky reveals two countries' love affair with a sport and the remarkable journey of San Pedro and its baseball players. In his distinctive style, he follows common threads and discovers wider meanings about place, identity, and above all, baseball. Watch a Video [The Unreasonable Virtue of Fly Fishing](#) Mark Kurlansky, 2021-03-02 National Outdoor Book Award Winner for Outdoor Literature. From the award-winning bestselling author of *Cod*, the irresistible story of the science, history, art, and culture of the least efficient way to catch a fish, Fly fishing historian Mark Kurlansky has found a battle of wits: fly fisher vs. fish, and the fly fisher does not always or often win. The targets: salmon, trout, and char, and for some, bass, tarpon, tuna, bonefish, and even marlin are highly intelligent, athletic animals. The allure Kurlansky learns is that fly fishing makes catching a fish as difficult as possible. The flies can be beautiful and intricate, some made with over two dozen pieces of feather and fur; the cast is a matter of grace and rhythm, with different casts and rods yielding varying results. Kurlansky is known for his deep dives into specific subjects, from cod to oysters to salt. But he spent his boyhood days on the shore of a shallow pond. Here, where tiny fish weaved under a rocky waterfall, he first tied string to a branch, dangled a worm into the water, and unleashed his passion for fishing. Since then, his love of the sport has led him around the world's countries, coasts, and rivers, from the wilds of Alaska to Basque country, from Ireland and Norway to Russia and Japan. And in true Kurlansky fashion, he absorbed every fact, detail, and anecdote along the way. *The Unreasonable Virtue of Fly Fishing* marries Kurlansky's signature wide-ranging reach with a subject that has captivated him for a lifetime, combining history, craft, and personal memoir to show readers devotees of the sport or not the necessity of experiencing nature's balm first hand. *Caliban and the Witch* Silvia Federici, 2004 Women, the body, and primitive accumulation. Travel, Tourism, and Identity Gabriel R. Ricci, 2017-09-29 Travel, Tourism, and Identity addresses the psychological and social adjustments that occur when people make contact with others outside their social, cultural, or linguistic groups. Whether such contact is the result of tourism, seeking exile, or relocating abroad, the volume's contributors demonstrate how one's identity, cultural assumptions, and worldview can be brought into question. In some cases, the traveller finds that bridging the social and cultural gap between himself and the new society is fairly easy. In other cases, the traveller discovers that reorienting himself requires absorbing a new cultural history and traditions. The contributors argue that making these adjustments will surely enhance the traveller's or tourist's experience; otherwise, the traveller or tourist will be at risk of becoming a marginalized figure, one disconnected from the society that surrounds him. This latest volume in the Culture Civilization series features a collection of essays on travel and tourism. The essays cover a range of topics, from historical travels to modern social identities. They discuss ancient travels, contemporary travels in Europe, Africa, and sustainable eco-tourism, and the politics of tourism. Essays also address experiences of Grenada's Spice Island, identity, and the effects of globalization and migrations on personal identity. **Indian Alliances and the Spanish in the Southwest, 750-1750**

William B. Carter, 2012-12-04 When considering the history of the Southwest scholars have typically viewed Apaches Navajos and other Athabaskans as marauders who preyed on Pueblo towns and Spanish settlements William B Carter now offers a multilayered reassessment of historical events and environmental and social change to show how mutually supportive networks among Native peoples created alliances in the centuries before and after Spanish settlement Combining recent scholarship on southwestern prehistory and the history of northern New Spain Carter describes how environmental changes shaped American Indian settlement in the Southwest and how Athapaskan and Puebloan peoples formed alliances that endured until the Pueblo Revolt of 1680 and even afterward Established initially for trade Pueblo Athapaskan ties deepened with intermarriage and developments in the political realities of the region Carter also shows how Athapaskans influenced Pueblo economies far more than previously supposed and helped to erode Spanish influence In clearly explaining Native prehistory Carter integrates clan origins with archeological data and historical accounts He then shows how the Spanish conquest of New Mexico affected Native populations and the relations between them His analysis of the Pueblo Revolt reveals that Athapaskan and Puebloan peoples were in close contact underscoring the instrumental role that Athapaskan allies played in Native anticolonial resistance in New Mexico throughout the seventeenth century Written to appeal to both students and general readers this fresh interpretation of borderlands ethnohistory provides a broad view as well as important insights for assessing subsequent social change in the region
