commercialism *The Business of America* probes the forces that have transformed citizens into consumers eager to take as much as they can from the planet From on line shopping to spectator sports to the cash and carry ethos of political campaigns Saul Landau decodes the subtle ways in which advertising images tell us to correct our inadequacies with more things SUVs credit cards air conditioning video games The winds of change are blowing Landau shows from resurgent student protests for underpaid janitors to the Group of 21 the developing countries that stopped the World Trade Organization dead in its tracks in 2003 Eschewing nostalgia for a simpler time a less interconnected world that can never return *The Business of America* shows how we as citizens can regain our identities stripping away the plastic overlay of consumerism

Tyner, 2006 *The Business of War* considers the myriad ways in which transnational labour migration intersects with the occupation of Iraq and examines the role of the USA in the Middle East The book places the war on terror within the practices of neoliberalism but also links this with migration issues and argues that it is all part of a larger business of conflict

The Big Business of Small Enterprises World Bank, 2015-02-13 The World Bank Group promotes small and medium enterprise SME growth through both systemic and targeted interventions Targeting means focusing benefits on one size class of firms to the exclusion of others Targeted support for SMEs is a big business for the World Bank Group averaging around 3 billion a year in commitments expenditures and gross exposure over the 2006 12 period In the context of broader reforms such targeted support can be a powerful tool Targeting SMEs is not an end in itself but a means to create economies that can employ more people and create more opportunity for citizens to achieve prosperity A thriving and growing SME sector is associated with rapidly growing economies A central challenge is to level the economic playing field by ensuring dynamic markets strengthening market support institutions and removing constraints to participation IEG found that financial sector development can have both a pro growth and pro poor impact by alleviating SMEs financing constraints enabling new entry of firms and entrepreneurs and better resource allocation Layered on top of this are targeted forms of assistance these interventions may build on a foundation of more systemic reforms may come in tandem with them or may in fact be a means to build systemic reforms from the bottom up Any credible justification of targeted support to SMEs must be focused on establishing well functioning markets and institutions not simply providing a temporary supply of benefits to a small group of firms during a project s lifespan Thus targeted interventions need to leverage resources to produce broader benefits for institutions and markets To make targeted support for SMEs more effective the World Bank Group needs to do several things Clarify its approach to targeted support to SMEs Enhance the support s relevance and additionality Institute a tailored research agenda Strengthen guidance and quality control for such support Reform MIGA s Small Investment Program
