The Best Weapon A World Apparent Tale:

The Tale of the Next Great War, 1871-1914 I. F. Clarke, 1995-11-01 This selection of short stories offers a return journey through the future as it used to be Time speeds backwards to the 1870s to the alpha point of modern futuristic fiction the opening years of that enchanted period before the First World War when Jules Verne H G Wells and many able writers delighted readers from Sydney to Seattle with their most original revelations of things to come In all their anticipations the dominant factor was the recognition that the new industrial societies would continue to evolve in obedience to the rate of change One major event that caused all to think furiously about the future was the Franco German War of 1870 The new weapons and the new methods of army organization had shown that the conduct of warfare was changing and in response to that perception of change a new form of fiction took on the task of describing the conduct of the war to come *In Search of the Obvious* Jack Trout, 2008-12-22 This is the first book that states the obvious Marketing is a mess Marketing guru Jack Trout intends to make a lot of people who made the mess very uncomfortable Advertisers are criticized as people who look for the creative and edgy not the obvious They will not be happy Marketing people are criticized for getting hopelessly entangled in corporate egos and complicated projects They will not be happy Research people are criticized for generating more confusion than clarity They will not be happy Some big companies are criticized for their ill fated marketing programs or lack of proper strategy They will not be happy Wall Street is criticized for putting too much emphasis on growth that is unnecessary and can be destructive to a brand They will just ignore this criticism and continue trying to make as much money as they can But this is a book not written to make people happy but to explain to marketers what their real problem is Only then will they begin to look for the obvious solutions that will separate their products from their competitors in a way that is equally obvious to customers All this comes with no jargon no numbers no complexity and a great deal of common sense *Stories Make the World* Stephen Most, 2025-06-01 Since the beginning of human history stories have helped people make sense of their lives and their world Today an understanding of storytelling is invaluable as we seek to orient ourselves within a flood of raw information and an unprecedented variety of supposedly true accounts In *Stories Make the World* award winning screenwriter Stephen Most offers a captivating refreshingly heartfelt exploration of how documentary filmmakers and other storytellers come to understand their subjects and cast light on the world through their art Drawing on the author's decades of experience behind the scenes of television and film documentaries this is an indispensable account of the principles and paradoxes that attend the quest to represent reality truthfully **The Story of the Guns** Sir James Emerson Tennent, 1864 Visible Spirits Steve Yarbrough, 2007-12-18 In 1902 in a small community deep in the Mississippi Delta nearly a generation after the end of slavery events obscured by time but impossible to forgive or forget echo in the lives of blacks and whites alike As bound together by history as they are separated by mutual distrust the citizens of Loring face present tensions as they look toward an uncertain future Into this charged atmosphere rides Tandy Payne prodigal son of a

prominent planter and brother of the current mayor and a dissolute gambler looking to reclaim the family estate When he takes advantage of a perceived slight from the town's black postmistress the ensuing clash with his principled brother results in a harrowing confrontation Fueled by dark and brutal memories their familial dispute quickly spreads through the countryside Steve Yarbrough confronts character with morality reason with blood in this moving novel that explores the farthest boundaries of human nature

EXTRACT Magnus agreed with Rognetide What else could they do He was nevertheless terribly anxious They were lost in this frozen wilderness alone with nothing to help them progress in the thick snow A chain of snow covered hills stretched to the horizon and in between stood vast pine and birch forests They looked dark and frightening Now and then the shriek of a raven pierced the air dramatically increasing the feeling of isolation and loneliness Magnus had never imagined that you could feel so small and insignificant or be in so much danger by just being in contact with nature At sundown when twilight crept in they heard wolves howling in the distance and later Rognetide picked out in the moonlight the silhouette of a pack at the top of a hill They were not far Rognetide remained calm and tried to be rational

The Story of the Great War (Complete) Various Authors, What lesson will America draw from the present Great War Must she see the heads of her own children at the foot of the guillotine to realize that it will cut or will she accept the evidence of the thousands which have lain there before Will she heed the lesson of all time that national unpreparedness means national downfall or will she profit from the experience and misfortunes of others and take those needed measures of preparedness which prudence and wisdom dictate In a word will she draw any valuable lessons from the Great War This is the question which is so often asked As yet there is no answer It is the question uppermost in the minds of all those who are intelligently interested in our country's welfare and safety It is the question which vitally concerns all of us as it concerns the defense and possibly the very existence of our nation The answer must be Preparedness If we are to live preparedness to

oppose the force of wrong with the strength of right Will it be That s the question Or will America drift on blind to the lessons of the world tragedy heedless of consequences concerned with the accumulation of wealth satiated with a sense of moral worth which the world does not so fully recognize planning to capture the commerce of the warring nations and expecting at the same time to retain their friendship and regard Let us hope that in the light of what is and as a preparation against what may be the answer will be characteristic of a great people peaceful but prudent and foreseeing that it will be thorough carefully thought out preparedness preparedness against war A preparedness which if it is to be lasting and secure must be founded upon the moral organization of our people an organization which will create and keep alive in the heart of every citizen a sense not only of obligation for service to the nation in time of war or trouble but also of obligation to so prepare himself as to render this service effective An organization which will recognize that the basic principle upon which a free democracy or representative government rests and must rest if they are to survive the day of stress and trouble is that with manhood suffrage goes manhood obligation for service not necessarily with arms in hand but for service somewhere in that great complex mass which constitutes the organization of a nation s might and resources for defense organization which will make us think in terms of the nation and not those of city State or personal interest organization which will result in all performing service for the nation with singleness of purpose in a common cause preparedness for defense preparedness to discharge our plain duty whatever it may be Such service will make for national solidarity the doing away with petty distinctions of class and creed and fuse the various elements of this people into one homogeneous mass of real Americans and leave us a better and a stronger people Once such a moral organization is accomplished the remaining organization will be simple This will include an organization of transportation on land and sea and of communications An organization of the nation s industrial resources so that the energy of its great manufacturing plants may be promptly turned into making what they can best make to supply the military needs of the nation By military needs we mean all the complex requirements of a nation engaged in war requirements which are many of them requirements of peace as well as of war It will also include a thorough organization of the country s chemical resources and the development thereof so that we may be as little dependent as possible upon materials from oversea At present many important and essential elements come from oversea nations and would not be available in case of loss of sea control

 Charles Frederick Briggs, 1848 **Amazing Stories** , 1927 **Story of the Spitfire** Ken Delve, 2025-01-30 An in depth
 exploration of the Spitfire s combat legacy pilot tactics and its enduring iconic status To many people the Supermarine
 Spitfire was Britain s saviour during the Battle of Britain and the embodiment of air combat during the Second World War
 The Story of the Spitfire presents a thrilling appraisal of this unique aircraft focusing on its fighting capability and the tactics
 of the pilots who flew it Using official evaluations and reports alongside technical and tactical developments plus the
 recollections of Spitfire pilots Ken Delve provides a fascinating insight into the combat career of this legendary aircraft
 Despite some problems with their new aircraft the Fighter Command pilots of 1938 were generally delighted with the Spitfire
 speed manoeuvrability and firepower were all far greater than they had been with the earlier biplanes In tactics and training

the RAF was outdated but it adapted quickly and the air battles over Britain in late 1940 forged the Spitfire legend How justified was the legend There were only nineteen Spitfire squadrons in Fighter Command during the Battle of Britain it was only later as the RAF turned to the offensive that the number of Spitfire units increased dramatically At certain times the combat initiative was lost to improved Messerschmitt Bf 109s and Focke Wulf Fw 190s but with increased performance and better training the Spitfire clawed back the advantage By 1944 the Spitfire was operating as a fighter bomber in various theatres of war with new tactics and new problems Many fighter pilots thought that having bombs strapped under the aircraft verged on an insult but with aerial targets in short supply this was the most effective if risky way of taking the war to the enemy After the war the Spitfire saw action right up to 1948 in the Arab Israeli War Today there are approximately seventy airworthy Spitfires in existence and R J Mitchell s remarkable aircraft is still the highlight of flying displays around the world
