The Troyes Mémoire Tina Kane,2010 First English translation of a late fifteenth century manuscript containing instructions for designing a medieval tapestry the only such to survive The Troyes M moire a late fifteenth century manuscript preserved in the archives of the town of Troyes France is the sole surviving example of the written instructions used in designing tapestries during the Middle Ages It is unique in its presentation of detailed information on how patrons and church officials communicated complex iconographic material to the medieval artists commissioned to paint cartoons for tapestries It is here translated into English for the first time with full introduction and extensive notes The volume also includes a translation of another richly informative document from

medieval Troyes the Account Books of the Church of Sainte Madeleine which introduces us to the actual people who worked together between 1416 and 1430 to produce a set of tapestries for the town's oldest church. They shed important new light on an era when tapestry represented a supreme form of art.
