**Fear Beaches** Susan Taylor Block, 2000-06-20 In Cape Fear Beaches with more than 200 rare black and white photographs  
 you will step back into affectionate memory when early residents slept in hammocks in precarious beach shacks when grand  
 buildings such as Lumina and the Oceanic Hotel dotted the beachscape when road repair meant a shovelful of oyster shells to  
 mend a pothole and when bathing suits left almost everything to the imagination This volume also recounts the black  
 community's experiences along these beaches primarily at Seabreeze and Shell Island and shares their personal stories and  
 triumphs in a changing social scene in which Reconstruction values slowly gave way to Civil Rights era equality Throughout  
 the book scenes of proud fishermen both amateur and professional with their daily catches snapshots of family picnics on the  
 beach and photographs of friends posed with the ocean as a backdrop remind us that at the beach the pace of life is  
 measured not by the hands of a clock but by the steady changing tides      *Children of Katrina* Alice Fothergill, Lori  
 Peek, 2015-09-01 When children experience upheaval and trauma adults often view them as either vulnerable and helpless or  
 as resilient and able to easily bounce back But the reality is far more complex for the children and youth whose lives are  
 suddenly upended by disaster How are children actually affected by catastrophic events and how do they cope with the  
 damage and disruption Children of Katrina offers one of the only long term multiyear studies of young people following  
 disaster Sociologists Alice Fothergill and Lori Peek spent seven years after Hurricane Katrina interviewing and observing  
 several hundred children and their family members friends neighbors teachers and other caregivers In this book they focus  
 intimately on seven children between the ages of three and eighteen selected because they exemplify the varied experiences  
 of the larger group They find that children followed three different post disaster trajectories declining finding equilibrium

and fluctuating as they tried to regain stability The children s moving stories illuminate how a devastating disaster affects individual health and well being family situations housing and neighborhood contexts schooling peer relationships and extracurricular activities This work also demonstrates how outcomes were often worse for children who were vulnerable and living in crisis before the storm Fothergill and Peek clarify what kinds of assistance children need during emergency response and recovery periods as well as the individual familial social and structural factors that aid or hinder children in getting that support
