Eating the Earth Justyn Walsh, 2023-09-12 Fossil fuelled capitalism although generating riches for billions is underwritten by a planetary pyramid scheme one in which withdrawals from the natural world are not supported by underlying capital replenishment resulting in global impacts such as climate change and biodiversity loss Former investment banker Justyn Walsh argues that the failure to properly value nature is more than just a glitch in the system but in many ways is the system one enabling a cowboy economy that relentlessly rolls forward to new frontiers of exploitation and gives the appearance of wealth being created when in fact much of it is being destroyed Stark in its warnings but hopeful in its prescriptions Eating the Earth argues that we need to embrace a new story one acknowledging that humankind is a part of nature rather than apart from nature that measures how life is enriched rather than destroyed and that lives off nature's dividends rather than eating into its capital

Gerald Grosvenor came into the line of succession by mere chance or rotten bad luck as he put it The third Duke was childless and the title passed to a cousin who became fourth Duke in 1963 and then when he died four years later to his younger brother Gerald s father Robert Grosvenor who lived on an island in Lough Erne where Gerald grew up Tom Quinn interviewed the sixth Duke on a number of occasions as well as people who knew the duke socially or had at various times worked with or for him He discovered a complex man tortured by what he saw as his failures He was a man who longed to return to his idyllic rural childhood yet was only really happy as an adult in the company of call girls The book looks at the long and often eccentric history of the Grosvenor family and its wealth and the complex means by which that wealth has been shielded from the taxman as well as the bizarre life of a man who was that strangest of things The Reluctant Billionaire
