The Of Charity:

Practical Discourses on the Nature, Properties, and Excellencies of Charity Hole, 1725 **The Economics of Charity** Samuel Smith, 1888 **The Public-Private Nature of Charity Law** Kathryn Chan, 2016-11-17

Is charity law a private law or a public law subject? This book maps charity law's relationship to the public law/private law divide, arguing that charity law is best understood as a hybrid public/private legal tradition that is constantly seeking to maintain an equilibrium between the protection of the autonomy of property-owning individuals to direct and control their wealth and the furtherance of competing public visions of the good. Of interest to scholars and charity lawyers alike, *The Public-Private Nature of Charity Law* applies its unique lens both to traditional topics such as the public benefit rule and charity law's rules of standing and to more contemporary issues such as the co-optation of charitable resources by threatened welfare states and the emergence of social enterprise. This book should be read by all who are interested in the respective domains of public and private law. Kathryn Chan brings new light to the divide and reveals the way in which both public and private law inform charity law. The book is subtle, original, and rigorous, with an excellent grasp of primary and secondary material. Paul Craig, Professor of English Law at the University of Oxford and a Fellow of St John's College. An original and thought-provoking book which takes the somewhat unruly law of charities and with great insight and clarity helps it to find its place on the legal map. Mary Synge, Associate Professor in Law at the University of Exeter. Kathryn Chan's impressive monograph breaks new ground in its analytical approach towards charity in the modern world. Her careful study helps us to understand how charitable enterprises partake of the values and concerns of both public and private law and to evaluate the strength and weaknesses of different approaches to the governance of charitable enterprises. Lionel Smith, Sir William C Macdonald Professor of Law, McGill University.

The Future of Charity Marketing Sarah-Louise Mitchell, Fran Hyde, 2024-11-07

Charities play an increasingly important role in our society. Whether caring for the vulnerable, campaigning for change, or enabling access to the arts, they are organisations on a mission underpinned by social purpose. However, charities now face unique challenges in a turbulent global economic climate due to structural changes in society post-Covid and pressure on disposable incomes. Charities need to transform and, in some cases, modernise for sustained increasing demand from their service users. They need to engage with a wider range of stakeholders, meet higher public expectations on transparency and governance, and compete for resources from existing as well as a continuous range of new competitors. This book brings together leading scholars to think about what is needed to future-proof the nonprofit sector in areas such as partnerships, collaborations, branding, communications, income generation, and fundraising, stakeholder involvement, and meeting the future needs of service users. This edited collection builds upon the research in the editors' first book, *Charity Marketing: Contemporary Issues, Research, and Practice*, to challenge students, researchers, and practitioners in understanding the challenges and opportunities ahead and think about how to future-proof nonprofit marketing. Drawing from a diverse group of academics and deep

thinking practitioners The Future of Charity Marketing focuses on how charities can prepare for the future through sharing big ideas and examples of best practice Presenting contrasting perspectives and the latest thinking on a range of challenges this book gives topics for classroom debate identifies areas for future research and offers practitioners useful insights
