The Of Genesis:

The Book of Genesis Ronald Youngblood, 1999-12-21 A thorough revision of Youngblood's two earlier studies *How it all Began* and *Faith of our Fathers*. The Book of Genesis provides students with a vast resource for understanding the beginning of the universe, marriage, society, redemption, life, sin, and civilization. Ronald Youngblood makes a profound application of the Genesis message to the issues of contemporary life. [The Book of Genesis](#), 1870 [Commentary on the Book of Genesis: Bible Study Notes and Comments](#) David Pratte, 2018-12-20 Bible study notes and commentary on the Old Testament book of Genesis. Emphasizes understanding the text with practical applications. Intended to be helpful to all Christians including teachers and preachers while avoiding an emphasis on technical issues. Written from the perspective of faith in the Bible as the absolute inerrant verbally inspired word of God. Comments include discussion of these topics: Are Bible accounts of creation and the flood literal history? Can organic or theistic evolution be harmonized with Scripture? Are the days of Genesis 1 literal or symbols of long ages? Were Adam and Eve the first man and woman? How did sin and death enter the world? Was Noah's flood worldwide or local? What promises did God make to Abraham, Isaac, and Jacob about the nation of Israel? How did Joseph interpret Pharaoh's dreams and save his family in Egypt?

The Book of Genesis Richard N. Hughes, 2000-12-01 Genesis is the first book of the Bible and in many ways offers us the Bible in miniature. It is a book of beginnings; indeed, its original title in the ancient Hebrew was *Bere Shith*, which translates "In the beginning," which are the first words of the book. Parenthetically, that is the way many books in the Bible were originally named. In both Jewish and Christian circles, Genesis is believed to have been written by Moses, who is also believed to be the author of the next four books of the Bible. Those five books, known as *The Pentateuch*, which means "the five," are believed to have been written during the forty years when the Jews wandered in the wilderness following the exodus from Egypt. It should be pointed out, however, that Genesis is made up of many stories of a traditional nature which may date back hundreds of years before Moses' time. It might be more accurate to say that Moses was the compiler of Genesis, drawing from oral histories and folk tales and weaving them together into a coherent narrative. The work was his, but the material was almost certainly traditional. Many Biblical scholars, although certainly not all, believe that there are three specific sources represented in Genesis and the other books of the Pentateuch, which range in origin from the tenth to the fifth century BC. They are as follows: The J strain, named for *Jahweh* (Yahweh), which is the personal name for God in the Old Testament. The J strain is an amalgamation of divine revelation and scientific data. The E strain, named for *Elohim*, which was one of the early names for God. This strain consists mainly of dreams and divine revelations. The P strain, called the Priestly strain, because it deals much more with the specifics of dates, details, and descriptions, explaining, providing a bridge, as Priests do. This can be confusing at times because there are instances when the three strains contradict one another, and in some sense, each has its own distinctive theology. It should also be said that while this theory is widely held, it cannot be conclusively proved. For all practical purposes, it is best to think of Moses as the author.
