A Reading of the Canterbury Tales Bernard F. Huppe, 1964-06-30 In the human comedy of Chaucer's *Canterbury Tales*, the pilgrims react to one another. The tales they tell reveal their own characters and serve in turn to supply dramatic settings for other tales told in response. In the chronicle of their self-revelations and of their reactions to one another, a thematic design may be traced. Chaucer's art of high comedy has behind it a literary tradition of which it is the fulfillment. Briefly, this is the thesis of Professor Bernard F. Hupp's *A Reading of the Canterbury Tales*. The book itself is the direct result of more than fifteen years of lecturing on the *Canterbury Tales* during which time Professor Hupp's views on the dramatic structure of the tales have been modified, clarified, and sharpened through discussion with students and colleagues, and through his study of Chaucer's literary tradition. *A Reading of the Canterbury Tales* retains the freshness and immediacy of a lecture series. It is intended to be provocative and to stimulate active discussion.

It offers a careful support and thoughtful framework upon which to base your own analysis, and challenging you to form your own ideas and opinions.

Teaching short stories in the EFL-Classroom Berenice Walther, 2008-02-29 Seminar paper from the year 2007 in the subject American Studies Literature grade 1-3 University of Münster course Teaching Short Stories in the EFL Classroom language English abstract The short story has its origins in traditional oral storytelling. Many of the world's greatest literary classics, such as *El Cid*, *La Chanson de Roland*, *Beowulf*, or *the Odyssey*, were originally orally transmitted. In most cases, the story has undergone many modifications in the course of the telling processes; still, they are today's primary testimonies for language, history, culture, and people of the past. They were told in rhyming and therefore functioned as a mnemonic device for easier recall. In Europe, the short story began to evolve from oral storytelling in the early 14th century with Chaucer's *Canterbury Tales* and Boccaccio's *Decamerone*, books consisting of individual short stories within a larger frame story. Only in the 19th century, modern short stories began to be considered a proper genre. Print magazines represented a strong market for short fiction.

theories related to this began to surge as for example Edgar Allan Poe's The Philosophy of Composition Nowadays the number of commercial magazines publishing short stories has decreased but they appear to have found their place in online publications Today reading has become a minor activity in people's lives with globalisation technological progress and a fast growing media industry In schools pupil's interest is increasingly difficult to stimulate especially when it comes to literature in the English Second Language classroom Students are used to fast information input without necessarily having to become active themselves they lose concentration easily when the learning process takes too long or they lose patience when they do not understand right away The use of short stories in the English Foreign Language classroom is one possibility to respond to this problem teachers of foreign languages have to face Therefore this paper is going to define the genre of the short story as such to create a basis for the following presentation of the benefits of short stories for the North Rhine Westphalian English Language Classroom In the next step the curricula and guidelines are taken into consideration in order to develop some ideas on how to implement The Machine that Won the War by Isaac Asimov in class These will be integrated into a lesson plan with several activities around the story There are several theoretical works dealing with the lecture of short stories starting with Poe's work mentioned above Allen Walter's The Short Story in English Charles E May's The Short Story The Reality Artifice or Frank Myszor's The Modern Short Story Some articles have been written e.g. by Rüdiger Ahrens Die bisherige Rolle der Short Story im Englischunterricht der Sekundarstufe II dealing with the use of short stories as a way of teaching literature Most has certainly been written about didactics of English in German classrooms such as Wolfgang Gehring's Englische Fachdidaktik Eine Einführung Englisch lernen und lehren Didaktik des Englischunterrichts by Johannes P Timm or Egon Werlich's Praktische Methodik des Fremdsprachenunterrichts mit authentischen Texten
