The Cultural Power of Medieval Monarchy Manuel Alejandro Rodríguez de la Peña,2023-09-22 This book focuses on

why the diffusion of the political theology of royal wisdom created Solomonic princes with intellectual interests all around the medieval West and how these learned rulers changed the face of Western Europe through their policies and the cultural power of medieval monarchy Princely wisdom narratives have been seen simply as a tool of royal propaganda in the Middle Ages but these narratives were much more than propaganda being rather a coherent ideology which transformed princely courts shaped mentalities and influenced key political decisions This cultural power of medieval monarchy was channelled mainly through princely patronage of learning and the arts but the rise of administrative monarchy and its bureaucracy are equally related to these policies This can only be understood through a cultural approach to the history of medieval politics that is a history of the relationship between knowledge and power in the Middle Ages a topic much analyzed regarding the medieval church but sometimes neglected in the princely sphere This volume is a study that supplies an important comparative study of the reception in princely courts of a key aspect of European medieval civilization The ideal of Christian sapiential rulership and its corollary rationality in government This volume is essential reading for students and scholars interested in understanding the medieval roots of the cultural process which gave rise to the modern state

The Homilies On The Gospel Of St. Matthew, Vol. 1 St. John Chrysostom, 1843 The Homilies of St Chrysostom on St Matthew were undoubtedly delivered at Antioch see Hom vii p 43 and probably in the latter part of the time during which he preached as a Presbyter Montfaucon considers his little mention of the sin of swearing a sign of his accomplished some reformation on that point by his previous exertions In the Homilies delivered from 386 to 388 it is a constant topic and the Homilies known to belong to that date are so numerous as scarcely leave room for such a series as the present These however contain very little to mark the period to which they belong The argument from his reference to dissensions some time gone by possible those between St Meletius and Paulinus and Evagrius in commenting on St Matt xxiii 6 is not very conclusive A modern reader must sometimes be struck with finding in St Chrysostom a kind of criticism which we are apt to think belongs only to later times His main object however is moral and he searches out with diligence both the meaning and the applications of particular passages usually concluding with an eloquent exhortation to some special virtue Some of the most remarkable of these exhortations are on the subject of Alms giving which he seems to have pressed with some success at last His calculation in Hom lxvi as to what might be done is somewhat curious In the end of Hom lxxxviii he demands a reformation as the condition of his entering on the controversy with Infidels In the next Homily he discusses the evidence of the Resurrection with nearly the same arguments as would still be used against an objector This is volume one out of two covering the homilies I through XLI
